

# BRYAN WEEKLY EAGLE

Published every Thursday by the Eagle Printing Co., Ed. E. Talmage, Editor; Arch B. O'Flaherty, General Manager. Member of Associated Press. Entered as second class matter, April 28, 1910, at the postoffice in Bryan, under act of March 3, 1879. Daily Eagle every day except Sunday. Rates of subscription: One year, \$1.00, absolutely in advance; six months, 75 cents. Cards of thanks and resolutions of respect, 5 cents per line; other advertising rates on application. Active correspondents wanted.

VOL. XXXV.

BRYAN, TEXAS, THURSDAY, NOVEMBER 1, 1917.

NUMBER 7

## MILICIAN CAN'T AFFORD TO BLOCK THE HIGHWAY

**Meeting There Thursday Afternoon to Give Impulse to the Bond Election for Good Roads in That District in Which Advantages of Living on a State Highway Were Urged and Their Duty Shown.**

Of the fifty signatures of tax paying voters necessary for the call of an election, forty-three had been secured in the Millican good roads district number two, Tuesday night, and all who are known to favor the project have not been seen. There are about seventy of these voters in the district, and all but a few want to get out of the mud and ruts, so those in favor of the proposition declare. Once the election shall have been called they anticipate no trouble in carrying it, in view of the fact that both government and state aid are expected to the extent of about \$30,000, leaving only about \$70,000 to vote.

Beyond doubt the meeting held at Millican yesterday afternoon, while it did not arouse any great local interest there, put leaves at work that will be productive of much good. Different speakers dissipated some of the troubles in the minds of residents and cleared the atmosphere materially. P. H. Arrington was chairman of the meeting and first called upon County Judge Maloney to speak. The judge cleared one point positively and definitely. North of the dividing line of district number one and district number two is a three-mile stretch of state highway in district number one that is graded and ditched but has not been graveled. Those opposed to the bond issue have been asserting that district number two bond money would be used to gravel this stretch of road.

### Spent All Money in District.

In very positive terms and with frequent reiteration to make it more positive Judge Maloney said that every cent of district number two money would be spent in district number two, and if it were not, those who diverted the money could be sent to the penitentiary. He said that a committee of district number two taxpayers should be appointed to co-operate and work with the county commissioners in the dispensing of this fund, and their wishes would be acceded to in all things except where the constitution placed the burden upon the commissioners court. He wanted them to feel that it is their work, and not that of the commissioners. The people of district number one have nothing to do with this project. In answer to a question he stated that the state automobile tax amounts to about \$8 a car per year on the average and about half of that comes back to the county, which must be used on a state highway. The road through Millican had been designated as a state highway and would get the benefit of this money.

### Brazos Funds Handled Honestly.

Dr. W. B. Bizzell, president of A. and M. college and others from the college were present. The doctor was asked to speak. Being a native of Grimes county, just a few miles away, he felt a special interest in this project, which he declared is a co-operative enterprise. When people get together to do a big thing in concert it means much for their welfare in the future. This community, he said, needs this sort of development, and he knew of nothing better than a good highway to bring it about. It is not only a matter of better means of transportation, but it gets the people together, and it links them up closely with the world outside. In the position he occupies with a highway department he has had a good many chances to observe the handling of funds for highways in the state, and he does not know of a single county in the state where the road money has been more economically or honestly spent than by the Brazos county commissioners court and this judge. "It is so easy to be suspicious," he said, "and in some counties there has been ground for suspicion." He offered the services of the college highway department to assist the people of Millican in their good roads project.

### Robertson Wants Highway.

Quite a number were present from Franklin, Robertson county, having traveled fifty-three miles in an auto to be on hand at this meeting. The spokesman for the party was B. E. Satterfield, who stated that they were present because they are interested in getting the Henry Exall highway through their county. They have been rather slow, he said, in moving to improve their roads through the center of the county because they did not want to take definite steps until they knew positively that they would be on the Exall highway, which is to be designated at the meeting in Dallas with the state highway commission, November 15. With the highway designated through Robertson county the probability of carrying a bond election would be easier. Brazos valley people need a permanent highway to aid in their development and he predicted that with its completion auto trucks would be running from Millican into Galveston and Houston with the products of the farms. The highway brings about other organiza-

tions for the betterment of the people of the communities and generates more happiness and prosperity.

### Navasota Would Tax Itself.

Navasota, Grimes county, was represented by a carload of leading citizens whose spokesman was Ward Templeman. The only thing to do he said is to get everybody to sign that petition. If the Navasota owners of property in the district could vote there would be no doubt about the proposition carrying, he said. In appointing an advisory committee he advised against putting on too many, three being enough in his estimation. The people in district number two would feel close to the project if such a committee were appointed. He thought there was too much talk and he wanted to get to the voting.

Judge Maloney made the statement that they had figured out the taxpayers in the district and had found that two-thirds of the taxes in district number two would be paid by the non-residents and the railroads.

### Millican People in Line.

John Battle of Millican was called upon and said that in defense of his own people he wanted to say that they are going to join in this great movement. They are just as refined in sentiment, just as ambitious to enjoy the good things of life and just as willing to contribute to this movement to get those things. He did not believe his people were going to oppose it. The movement is too great, too big, so that they cannot afford to set it aside. "We are going to carry the bond issue and I don't believe there will be any opposition to it," he declared.

### Exall Highway Association.

L. S. Franklin, secretary of the Henry Exall highway association, was the principal speaker of the evening. A few men, he said, who are determined to do things will accomplish wonders. Man is largely will power, anyhow. He outlined the purposes of the association to build a great highway from the Red river on the north to the gulf on the south, and showed the great possibilities thereof to the people of Millican. The men officially connected with the association are worth two hundred million dollars, these are men who want to see the state great and who know it can be brought about by improving the means of communication. The highway is to be four hundred miles long, and the Texas highway commission will have to locate it. It would be unfortunate, indeed, if the people of Millican should fail to provide the connecting link and let the highway go over some other route. It is a great responsibility to assume. No man lives to himself. That man who is willing to let his community lag behind is not really a patriot.

Briefing the history of the highway association he said that about six months ago several men got together to organize it, among them John Sealy of Galveston and Alex Sanger, who started in business in Millican and who just the other day subscribed \$250,000 to the liberty loan. It is to be built as an enduring monument to Henry Exall, who gave the last few years of life entirely to the betterment of mankind. Mr. Franklin declared that when he died he believed he was the greatest man in Texas because he had rendered unselfish service.

### Smug People's Troubles.

He discussed the smug and satisfied people. Job, he said, never got into serious trouble until he became satisfied with himself. A community that is self-satisfied is hopeless. Every man, if he is a man, should be anxious to make conditions for his children better than he himself was able to enjoy.

Why is land in Houston and Dallas of greater value than in Millican, he asked? It has practically the same rainfall and the soil is no better, and it produces about the same per acre. The answer is that these places have more people, and the more people there are the greater demand for land, and the greater the congregation of people the more desirous are other people of joining them.

### Keep Young Folks at Home.

This railroad, he said, has done about all it can for Millican. The railroads are at a standstill. The great movement of the future will be road building. We be to that community which fails to keep step. The young folks move away from the villages and we cannot blame them. They are not satisfied to rust their lives out. If we want to keep the young fellows at home we must give them opportunities. Make the home place attractive to the boys and girls and they will not leave.

He believed that the business of Christianity is to give life a chance and dying will take care of itself. The

## SCHOOL BUILDING ARCHITECTS CHOSEN BY JOINT COMMITTEE

**Bond Bids to Be Opened November 16--Waller & Co. to Prepare Plans and Specifications and Supervise Construction.**

The joint committee, appointed three from the city commission and three from the city school board, held a meeting last night in connection with four leading firms of architects of the state relative to the plans for the new high school building to be erected in Bryan.

After considering carefully the plans submitted by the different firms, the committee selected those of M. L. Waller & Co. of Fort Worth and contracted with this firm to be the supervising architects of the building. They will not only prepare the plans and specifications for the building, but will superintend its building. As soon as the contract for the construction of the building is awarded, the firm will send a man to Bryan to live until the building is completed, and Mr. Waller of the firm will also make monthly visits to Bryan for a general inspection of the work and the progress being made.

The committee hopes to be able to turn over to the city and the school board a building that will be the pride of the entire citizenship.

Upon completion the plans and specifications advertisements for bids will be made, for the construction of the building and unless something unforeseen occurs, it will not be long until the work of erecting a new high school building for Bryan will be in actual progress.

The committee has already advertised the sale of the \$90,000 school bonds and the date for opening the bids for the purchase of same was set for November 16th.

The joint committee is composed of Mayor John M. Lawrence, Tyler Haswell and H. A. Burger from the city commissioners and J. S. Doane, M. B. Parker and K. Q. Astin from the school board.

## DODGES WIN SUIT AGAINST FORD CO.

(By Associated Press) Detroit, Oct. 31.—A suit, brought against Ford Motor Car Co. and Henry Ford by John F. Dodge and Horace Dodge to compel Ford to disburse accumulated dividends to the stockholders instead of using the money to increase the company's business, was decided in favor of Dodge Brothers.

Old time method of presenting Christianity was to urge preparation for death. Now the method is to urge right living and death will lose its terrors.

He spoke of the value of living on a great highway in its influence on the people along it, both materially and socially. He was proud of the fact that the president of the greatest institution of its kind in the south was present to give his influence to this movement. If the people of Millican district vote these bonds, he declared, they get themselves in line with the great thought of the state and nation. It does not take brains to be opposed to anything; all one needs to do is to think out these great movements. All the money to be raised by these bonds is to be looked after by the county with the advisory committee and the federal government. "I don't believe public officials as a rule are dishonest, but they often need advice and guidance," he declared.

### Can Borrow More Money.

Another point he made was that by reason of the highway land values would be increased and more money could be borrowed under the land bank system.

The world is not going to stop if this election is not carried, he told them, but he urged that every man in the community sign that petition. Diverging somewhat he spoke of the fact that most of the insane women in our asylums come from the rural districts because of the effects of loneliness, the cure for which is society, and that is obtainable through the influence of good roads.

After the war he predicted a great influx of foreign farmers who would seek those communities that have good roads, good schools and good churches. They are farmers, too, who for thousands of years have practiced scientific farming.

"You ought to convert everyone of the seventy voters in this district to the good roads idea. Wouldn't it be an awful thing if seventy men could tie up this whole project?"

County Commissioner Buchanan remarked at the close: "I am going to have this road built if I have to come down here and build it myself."

After some informal discussion the meeting broke up and divided into groups to discuss the proposition. Five carloads of men from Bryan and one each from Navasota, College and Franklin were present.

## FOUR OF BRITISH CREW WERE LOST IN BALTIMORE FIRE

**Two Piers Burned and Blaze Spread to a British Steamer Lying in the Harbor--Loss \$5,000,000.**

(By Associated Press) Baltimore, Oct. 31.—The disastrous blaze which wrecked two of the Baltimore and Ohio terminal piers at Cloud Point spread to a British steamship causing it to burn and sink with a probable loss of four of the crew. The fire broke out last night and was gotten under control at 3 o'clock this morning. Railroad officials declare the blaze of incendiary origin. The loss will be over \$5,000,000.

## OFFICE HOLDING ARMY COULD BE DISCHARGED

(By Associated Press) Dallas, Oct. 26.—In a statement opening the meeting of the senate committee for investigation of state departments, Senator Westbrook of Hunt county declared the expense of the state could be reduced 5,000,000 and the army of office holders discharged without crippling the efficiency any.

## AMERICAN TROOPS IN FIRST LINE TRENCHES

(By Associated Press) With the American Army in France—Oct. 27.—American troops are now in the first line trenches on the French front. They are supported by American artillery. The artillery fired the first shot at the Germans at six o'clock in the morning of a recent day.

The first shot was fired at a German working party. The first shell case is to be sent to President Wilson. Following is first official statement issued by American headquarters:

"In continuance of their training as a nucleus for instruction later a contingent of some battalions of our first contingents in association with veteran French battalions are in the first line trenches of a quiet sector on the French front. They are supported by some batteries of our artillery in association with veteran French batteries. The sector remains normal. Our men have adopted themselves to the actual trench conditions in a most satisfactory manner.

"Helmeted infantry marched in without the knowledge of the enemy on the same night through rain and mud. French soldiers in the trenches welcomed them enthusiastically. The nearest enemy trench is several hundred yards away. The sector is one of the quietest of the front. It has been taken over, being under direction of French. Americans have shelled German positions and troops, the enemy sending shell for shell.

The first shot was fired by a red haired gunner as his comrades and officers cheered. Later luncheon in the field was attended by American and French artillerymen in celebration of the first American contact with the enemy.

On the second day the French fired at German battery positions and the enemy replied vigorously, projectiles falling close to the Americans who joined in the artillery duel. All troops are to be relieved after a certain period by others, enabling all Americans to get the benefit of actual war conditions.

## VARIOUS ENCOUNTERS ON ITALIAN FRONT

(By Associated Press) Rome, Oct. 31.—There were various hill and canal engagements between Italians and the invading Austro-German troops yesterday, the war office says, the Italians covering the units and the cavalry permitting the other troops to continue to move toward their new line.

According to Plans. (By Associated Press) Berlin, Oct. 31.—The campaign on Italian front is being developed in accordance with the plans of the Austro-German leaders, the war office reports.

PISTOL TOTING CASES. (By Associated Press) Deputy Sheriff Leonard Morehead and Constable C. L. Baker yesterday arrested Andrew Thomas, Roy Allen and George Udley, all colored, at Cawthon in the southern portion of the county on charges of pistol toting. The officers report the men well supplied with ammunition and that they opened a general fusillade as they passed through the country.

## HOOPES PRAISES THE PATRIOTIC PRESS

Dallas, Texas, Oct. 31.—It would appear that the liberty loan is safe. By working day and night we have managed to tabulate about \$69,000,000 worth of subscriptions up to the time of the dispatch of this telegram. Final figures, which it is confidently believed will total over \$75,000,000, the minimum allotment, will be available on Thursday night, when we will at once advise the press. Needless to say we shall express to the members of the press and to our organizers and workers individually the deep gratitude of the government and the officers of the federal reserve bank of Dallas for the magnificent work which has been accomplished. The press of this country have raised to themselves a monument of patriotism which will stand for all time. The liberty loan workers have shown that an intelligent, practical patriotism exists from the Red river to the Rio Grande, in the Sierras of the New Mexico, in the mines of Arizona and in the farm lands and markets of Louisiana and Oklahoma. Press, organizers and public have shown their worthiness to share in the forthcoming triumph of world-wide democracy.

J. W. HOOPES, Deputy Governor of Federal Reserve Bank.

## Water Way Leaguers to Meet Congressmen

(By Associated Press) Corpus Christi, Texas, Oct. 31.—Officials of the Interstate Inland Waterway League of Louisiana and Texas are making arrangements for Louisiana and east and southwest Texas delegates to join at Houston on November 21 the congressional party that is to spend a week visiting Texas ports, and on November 22 and 25 attending the annual convention of the Waterway League to be held here.

A few days before the close of the special session of congress, Hon. J. H. Small, chairman of the house rivers and harbors committee accepted an invitation to visit Freeport and other Texas points.

Among those of the committee who have signified their intention of making the trip are Chairman Small of North Carolina; Hons. Charles F. Booker of Missouri; William Kettner of California; L. M. Taylor of Arkansas; Murray Hulbert of New York; H. Garland Dupre of Louisiana; Martin Dies of Texas; Oscar L. Gray of Alabama; George K. Denton of Indiana; H. F. Fisher of Tennessee; Charles A. Kennedy of Iowa; R. H. Switzer of Ohio; James L. Freer of Wisconsin; Dow H. Drukker of New Jersey; S. Wallace Demsey of New York and Henry L. Osborne of Ohio.

Governor Hobby has accepted an invitation to be with the party as much as possible during their stay in Texas.

## Germany Assured Plenty of Food

(By Associated Press) Berlin, Oct. 31.—In a speech here Berin, under secretary for the German food department, said Germany is again assured for the fourth winter of the war. He said the German potato crop was between 4,000,000 and 4,500,000 tons above the estimate and the corn supply for the winter is fully assured.

## DRAFTED NEGRO INJURED.

Claude Nelson, one of the drafted negroes from this county, was injured last Friday, his leg being broken. He was riding a young horse without saddle or bridle, when it ran away with him, stopping suddenly at his own gate with such force that the boy's body was almost wrapped around the post. The break is a bad one and much bruised, so bad the doctor says it will require eight weeks for healing. Claude was only 20 years old when he registered, but not knowing his age, he took the advice of a white man who told him if he was 21 and did not register he would be sent to the penitentiary, and advised him to be on the safe side.

## ARTILLERY FIGHTING NEAR AISNE LIVELY

(By Associated Press) Paris, Oct. 31.—Today's official statement reports lively artillery fighting north of the Aisne. The enemy in his attack, attempted near Lohyve, was repulsed in Argonne. The Germans suffered considerable loss when the French repulsed a surprise attack.

Enemy aviators dropped thirty bombs last night on Dunkirk. No casualties nor important damage are reported.

Aeroplane Driven Away. (By Associated Press) London, Oct. 31.—The official statement says a hostile aeroplane crossed the Kentish coast early this morning. Anti-aircraft guns drove the enemy away before it penetrated inland. No casualties resulted.

Canadians Established. (By Associated Press) Canadian Headquarters in Flanders, Oct. 29.—(Tuesday)—The Canadians having gained a further footing on Passchendaele ridge after bitter fighting have now established their front line within a few hundred yards of the ruined village of Passchendaele.

## ARTILLERY REPLIES TO FRATERNIZERS

(By Associated Press) Petrograd, Oct. 31.—The Germans are continuing their attempts to fraternize with the Russians, the war office says. Efforts to fraternize were frustrated yesterday on the northern front by the Russian artillery.

## ROCK ISLAND MEN GET INCREASE WAGES

(By Associated Press) Chicago, Oct. 31.—Wages were advanced and hours per day and days per month were reduced by the board of arbitration which reported today on the demands of telegraphers of the Chicago, Rock Island and Pacific railway. Seventeen thousand dollars additional each month will be added for wages.

## FOURTH DISTRICT EXCEEDS ITS QUOTA

(By Associated Press) Cleveland, Oct. 31.—It is officially announced that the fourth district second liberty loan subscriptions amount to \$489,450,000, with returns not all in. The maximum quota was \$300,000,000 and the committee's goal was \$400,000,000.

## German Losses Are Six Million Men

Washington, Oct. 31.—Germany lost 6,000,000 men in the three years of war, according to a declaration made in the reichstag by the independent socialist Ledebour.

A report of his speech reaching Washington through Switzerland states that contemplating the prospects of a fourth winter campaign the socialist leader said:

"You have not evidently, gentlemen, an exact conception of what war means. We have had 1,500,000 dead; 3,000,000 or 4,000,000 wounded, of whom 500,000 are crippled for life, and 2,000,000 absolutely invalided. That makes altogether 6,000,000 men lost during three years."

## Refunds Paid by Highway Commission

(By Associated Press) Austin, Texas, Oct. 31.—Hundreds of checks covering refund claims have just been mailed out by the state highway commission to various persons throughout the state. No claims against the commission for refund on account of error can be made unless it is presented in proper manner and sworn to by the claimant. This is the reason there has been a large accumulation of these claims, many of which had to be returned.

These errors in practically all cases have now been corrected and the claims are being paid. The law under which the commission is operating is entirely new, consequently there has been much delay in getting the claims in proper shape.

## BRYAN BOY IN TRENCHES.

City Manager Greer was in receipt today of a letter from his son, Lieutenant Fred C. Greer, in which the young man states that he was at the time it was written in the front line trenches, and evidently among the first contingent sent forward, announcement of which was made only a few days ago. As the letter was written after he entered the trenches it indicates how slow the government is to let out important news until the contemplated movement has been completed. He says the Americans are with instructors and are not supposed to go over the top unless they want to go with the French. Another thing he mentions that it takes a half day to cross No-Man's-Land, a distance of 3,000 yards, because of the shell holes and entanglements. Trench rats, he says, are as big as Texas possums and are excellent for pistol practice.

## GERMAN SOLDIERS ENGAGE IN SERIOUS MUTINY IN BELGIUM

**Refused to Go to the Front, Damaged their Guns or Fired on their Officers But Were Finally Overcome.**

(By Associated Press) Amsterdam, Oct. 31.—According to the newspaper, Nieuwles, a serious mutiny occurred among the German soldiers at Beverloo camp in Belgium. It is said the men refused to go to the front and damaged their own rifles in some cases while others fired on their own officers, several of whom were wounded. The mutineers were finally mastered and removed in cattle trucks.

No Counter Attacks. (By Associated Press) London, Oct. 31.—The Germans made no attempt during the night to regain the ground won yesterday by the British on the Ypres front. The statement says German artillery developed some activity during the night but no counter attacks occurred.

## West Texas Dry but Glad Its "Dry" Here

Colorado, Texas, Oct. 25.—To The Bryan Eagle: Perhaps you will be surprised to know that I am out here with the sand storms of West Texas. We had a bad sand storm last Thursday, Saturday and Monday and another one is blowing this morning, but you will not be surprised at the sand storms when I tell you that there has not been rain enough to bring up the seed that was planted in the spring. The farmers are not making anything out here this year, although this is fine land and country when they have rain but, like good old Brazos, they cannot produce without rain. Say, Mr. Editor, I had the pleasure of reading The Eagle a few days ago and to my sorrow I saw that the commissioners court had put off the closing of the saloons until July. I was made to wonder is such a thing could be done. This morning through the kindness of Mrs. Joe Sheppard I got another copy of The Daily Eagle and was made to rejoice that such a thing could not be done, and that County Judge Maloney will publish an order putting prohibition into effect according to the election and law. Glory be, to the men of stamina.

I had the honor and pleasure of attending a home wedding of one of Brazos county's most popular young ladies, Miss Minnie Lawless, at the beautiful home of Mr. and Mrs. Joe Sheppard. After serving ice cream and cake they took the train for a tour. The groom if Mr. C. Pritchett is connected with the City National Bank of Colorado, Texas.

J. H. WHITE, SR.

## German Propaganda Active in Mexico

El Paso, Texas, Oct. 31.—Posters in Spanish urging Mexicans to remain neutral, to be friendly with Germany and not to become an ally of the United States were displayed in front of a German stationery and supply house in Chihuahua City, together with pictures of the kaiser and distorted statements of German victories, a Mexican merchant, who arrived here Tuesday from Chihuahua City, said. This is part of the campaign to create a feeling in the north friendly to the German cause, he added, and said much money was being spent there to further this propaganda.

The Mexican said General Francisco Murguía's trip to Mexico City was to attend a conference of generals to discuss a plan of campaign against the growing Felix Diaz and other revolutionary movements in the south.

A conference between Spaniards from the United States and Germans in Chihuahua for the purpose of planning an evasion of the trading-with-the-enemy act was to be held in Chihuahua City Wednesday, the merchant said. They expect to act as agents of German houses to get goods to Mexico in spite of the embargo.

## Luis Cabrera Will Visit Washington

Mexico City, Oct. 31.—It became known Tuesday that Luis Cabrera, former minister of finance, is shortly to leave for Washington, having obtained leave of absence from the lower house of congress, of which he is a member, for the purpose of carrying out a commission for President Carranza.

Senator Cabrera's mission is said to be connected with embassy affairs at Washington in an effort to secure gold and the lifting of the embargo on such necessities as Mexico desires to import.

## LIBERTY LOAN SUBSCRIPTIONS.

Subscriptions to the second liberty loan by citizens of Brazos county at the close of business Saturday night reached a total of \$129,000.

# EDITORIAL DEPARTMENT OF THE BRYAN WEEKLY EAGLE

## Rural Teachers and Preachers

Rural life in Texas is as nothing compared to what it should be. And Brazos county is no different from any other political division of Texas in this matter. The homes, the churches, the schools, the barns, the poultry houses, the water supply, the orchards and gardens, the means of communication, the sanitary arrangements are far from being what they should be. In this climate with abundance of building materials the homes and their environments should be of the very best. But what do we find? The typical Texas rural home may not be those box houses, constructed of rough boards, unpainted, unadorned, consisting of an open hallway between two main rooms and surrounded by magnificent distances. Not a tree, unless it be a forlorn chinaberry, not a shrub, nor a kitchen garden stops the vision. There is nothing but dreariness in the appearance, and hence there can be produced nothing but dreariness of mind. Even the barns are old sheds built with poles that are canted over like the grave-stones of a mother-in-law, the two or three hogs that survive on the place make their habitation beneath the floor of the house, the horses, cattle and poultry, such as there may be, are confined at night in a little pen near the house, and the conditions generally are suggestive of hith and lack of thrift. Water is drawn from an open well with a bucket, and is so arranged that all the washings from the horse and cow lot run into it, as well as most of the filth from the house yard. The fences are kept up out of necessity, else the half starved horses and cattle would eat the crops, but there is no fence about the house, or if there is one, it is but a remnant of what once was. This may not be a typical farm home, but it is common in Texas. How decent people can put up with it is answered only by the fact that they do not know of better conditions. In their ignorance they are enjoying a certain kind of bliss. But they are not contented. If they are tenants they are on the move. If they own the place they seldom get it paid for. They are people without vision or ambition beyond making the annual crop and mortgaging the next crop before the last one is well out of the way.

Our system of imparting vision to the rural folks is wrong, or at best only half right. In McLennan county, of which Waco is the county seat, the Baptists took a survey last year and found that of all the rural churches served by that denomination only one had a pastor resident in the community. The remainder lived in Waco or the small towns in the county, and spent Saturday and Sunday with their people. Doubtless they did some good, but they never in a million years get the point of view of the rural people. The same is true in lesser degree with our public school teachers. They are hired for six, eight or nine months to teach the schools in certain districts. The Jonesville girl becomes a temporary resident of the Smithtown community. Her heart is not with the Smithtown folks, but is at Jonesville, where her parents and childhood friends live. She teaches for the money there is in it, and gives good service in return, no doubt, but it is largely a perfunctory service. She lacks the one chief essential to being really helpful; she has not the missionary spirit.

A year or so ago a series of articles was run in one of our magazines dwelling upon the development of an ideal rural community through the agencies of the school and the church. The teacher and the pastor were men of vision who assisted their people in material ways as well as in spiritual directions. Both had a horde of old time prejudices to overcome, but in the end that rural community had a fine school, a fine church, a moving picture show and scientific agriculture, coupled up with community canning, packing, refrigerating, syrup making and other plants. The teacher was made a permanent resident of the community. He had a cottage and a small acreage in connection with it on which he raised his own necessities and conducted a small demonstration farm. Perhaps he had taken a course of study similar to that offered in agricultural education by the Texas A. and M. college. At least, he understood the rural problems and was a man of vision and energy and will, one who was capable of undertaking nothing he could not prove and who proved that of which the old timers were skeptical. He taught the children and he taught the grown folks better ways of living. His vision was the ideal community life and he brought his vision into actual being, ably supported by the preacher through it all.

The Texas A. and M. college has within its power the reformation of rural conditions in Texas through the agency of its agricultural education course, which is designed to fit young men for teachers in rural communities. Texas men, and men of other states for that matter, shy at teaching as a regular avocation, because it offers so little opportunity and so little future and so little chance to gain even moderate wealth. But here is a plan that will gain all these. One community, at least, in Brazos county has made a start in the right direction, but their progress is naturally slow. They lack the means to do all they want to do. They hope to erect a cottage on a larger tract of ground than they now own and employ a teacher by the year and from year to year if the one they secure in the beginning proves the right man for the place. Such a man must be able to teach more than what is found in the ordinary school books. He must be a leader among his people, and the preacher who should be located with him should likewise be capable of leadership. Both must become such important parts of the community that they could not be released without serious injury. The only way they can do that is to be able to be helpful in all things, much on the principle that missionaries in foreign countries find it helpful to have a course in medicine and surgery. Problems of everyday life of everybody in the community must be solved, whether it be a cure for the pimple or a decision in a doubtful marriage alliance.

The solution of the rural problem is to get trained men to the rural communities. In the past they have deserted the farm as soon as they gained a wider knowledge of the world, and the farm has lost much in trained brains as a consequence. Mental training has been misdirected in practice. We are dependent upon the farmer and he should be made just as brainy as possible and kept on the farm. But he will not stay there unless he is happy.

## Shoot the Way You Shout

"Some fools have asked, 'why should our boys fight abroad?'" Colonel Roosevelt said. "Our boys are fighting abroad with the allies so they will not have to fight at home without allies. No man should wave a flag, sing a patriotic song or cheer unless he is willing to help out. He should shoot the way he shouts."

## BIG OUTPUT OF CANNED PEAS.

The Food Administration issues the following:

According to reports made to the Food Administration, the canning industry has responded nobly to the demands for food conservation. The 1917 output of canned peas has reached the enormous total of nearly 10,000,000 cases of 2 dozen tins each as compared with the previous record of approximately 9,000,000 in 1915 and an output of about six and one-half million in 1916.

While there is some shortage in the highest-priced grades, there is a surplus in the medium and larger sizes of peas, which have the most nutrition and which are in most general demand.

Most of these peas were sold by canners before the declaration of war to be delivered this fall after canning and at prices to the wholesale trade ranging from 90 cents to \$1 per dozen for the cheapest grade to \$1.20 for those of the medium size and price. There is accordingly no excuse for the extortionate prices being asked in some markets.

## PROBATE COURT.

J. T. Maloney, Judge.

From Saturday's Daily Eagle  
Estate of D. W. Pence, deceased, will admitted to probate, and Chas. Puryear, R. F. Smith and E. J. Kyle appointed appraisers and T. R. Spence appointed independent executor with out bond.

Estate of A. F. Wilson, will admitted to probate and letters testamentary ordered issued to Sammie Wilson as independent executor without bond and that T. R. Batte, J. W. Barrow and Roy Hadspeh be appointed administrators. Inventory and appraisal approved.

Estate of Andrew J. Francis, deceased, application for appointment of temporary administrator granted and Mark Francis appointed. Bond \$2,500.

## YAM WEIGHED 6 1-2 POUNDS.

From Saturday's Daily Eagle  
Rev. Abe Johnson, colored, brought to the Eagle office today from his farm on Wixon creek a very fine specimen of the Nancy Hall variety sweet potato. It was large, smooth and it weighed 6 1-2 pounds.

## WHAT EAGLE FILES TELL OF OTHER DAYS

(1899.)

Prof. J. H. Allen and family arrived from Madisonville last night and will reside here in the future. Their household effects were brought over yesterday. Prof. R. O. Allen will arrive Sunday.

Will Saunders entertained a merry party of young friends Thursday night at the home of his parents. Among those present were Misses Ermine Rogers and Howell Donnell of Waco, Misses Marie Adams, Daisy Astin, Arrie Cole, Lavina McConico, Mabel Robinson, Sallie Johnson, Esther Boatwright, Nan Parks, Nonie Adams, Mattie Watkins, Henry Wilson, Mary Lohde, Pearl Weatherford, Kittle Sims, Mamie Sims, Fannie McMorris; Will Johnson, Tom and Bob Roberts, Sam McConico, Fred Harbers, Ervin Astin, Will Saunders, Will Taliaferro, Henry Robinson, Ralph Cotham, Carl Cole, Frank Myers, Frank Newton, Ollie Emmel, Wes Waldrop, Henry Foster, Sam Fountain, Willie Wilson.

Mrs. J. Webb Howell and Miss Jennie Howell left for a visit to Navasota yesterday.

Irvin Barron has a position with Sanders Bros. & Co., where he will be glad to meet his friends and the public.

Misses Lilla Graham and Malcolm McInnis have returned from spending the summer on the Colorado river near Kingsland.

Little Miss Tot Jenkins, daughter of Mr. and Mrs. C. E. Jenkins, is visiting relatives in Houston.

John B. Mike yesterday made a shipment of thirty-five game cocks to parties in the city of Mexico, which is probably the largest shipment ever made from the state. Mr. Mike shipped 200 games last year to the same party in Mexico and is filling another contract this year for 200. Mr. Mike is very successful with game chickens and as will be seen has established a reputation for raising fine birds that extends beyond the border of the state.

The Knights of Pythias lodge, at a recent meeting, elected the following officers for the ensuing year: J. B. Stevenson, C. C.; Floy Dansby, V. C.; Frank Clarke, M. of W.; Houston Cole, P.; O. E. Saunders, M. at A.; J. B. Reed, M. of E.; D. C. DeMaret, K. of R. and S.; J. M. Hare, M. of F.; John B. Hines, I. G.; T. K. Lawrence, O. G.

Joe Saladin has returned from Houston where he was elected treasurer of the tobacco growers association. Master George Brandon returned from Austin yesterday.

H. A. Burger has purchased the residence of Ex-mayor Adams, and the latter has purchased the pretty lot in front of Mr. J. W. Johnson, where he will build.

Misses Mary and Nellie Rohde, of Bryan who have been in the city for some time visiting Mr. and Mrs. Chas. Blatherwick, returned home this morning.—Navasota Examiner.

Tyler Haswell and J. Allen Myers have returned from Waco. Mr. Myers was made a member of the republican state executive committee from this district.

Miss Mattie Tabor will entertain the J. A. O. club and a number of young gentlemen this evening at the home of her parents, Major and Mrs. J. W. Tabor, complimentary to Miss King of Taylor.

Mr. R. E. Lee contemplates getting up for an early date, a midwinter carnival ball at Bryan. His design is to get up something unique in the way of Cotton Masques. Mr. Lee's well known ability in artistic designs gives assurances that he can plan and execute a scheme that will afford no end of amusement and novelty, and something that will attract visitors to Bryan, for the occasion, if he can get the proper encouragement to put it on foot.

Judge J. W. Doremus, Judge W. H. Nall, Mayor Harrison, E. F. Parks, John Ettle, Frank Clarke, Ed Saunders, Will R. Thomas, W. J. Coulter, George McMichael, Harry Burger, F. Marion Law, J. G. Olcott, J. R. Davenport, John B. Hines and Robert Howell visited Navasota last evening by invitation of the Navasota K. of P. lodge and, after assisting in work of initiation, took part in a magnificent banquet.

Established a reputation for raising fine birds that extends beyond the border of the state.

Mr. Guy M. Bryan, who is traveling in Europe, with his daughter, has written a number of highly entertaining letters to friends here describing the world famous places he has visited. He wrote last from Paris and was on the homeward journey.

The board of county examiners composed of Mayor W. A. Banks, F. Marion Law and Miss Gertrude Nall, began a two days examinations of teachers at the court house yesterday. There were five white and twelve colored applicants before the board.

The amount of improvement now going on in Brazos county was probably never equaled before in years. Several of our communications from correspondents in various portions of the county this week mention that

farmers generally are off to the saw mills after lumber. The dry weather, good roads and short cotton crops enable them to haul from the mills this fall, which many are doing, while a great deal of lumber is also sold by the Bryan lumber yards.

At a meeting of the directors of the M. and P. bank held yesterday Mr. A. W. Wilkerson of Austin, was elected cashier. Mr. Wilkerson is a successful young business man and assistant cashier of the City National bank of Austin.

Miss Ada Board arrived from Colorado yesterday. The train on which Miss Board was homeward bound collided with a freight above Ennis Friday night and the engines were badly damaged. The passengers were badly shaken up, but only one person was injured.

Born, to Mr. and Mrs. John M. Lawrence, yesterday morning a son.

Mrs. James O. Chance and son, Master George, have returned from Denver.

Bart Sims arrived home yesterday from Tulane to attend the Sims-McKenzie wedding and spend the holidays. Bart was one of the star players on the Sewanee football team during the past season and played with Born to Mr. and Mrs. Robt. Armstrong, a son.

Mr. and Mrs. W. R. Howell and Mr. and Mrs. Ralph Howell arrived from Navasota yesterday to join the family reunion here at the home of Dr. and Mrs. J. W. Howell.

W. J. Coulter and sisters, Misses Loula and Dona Coulter, and Misses Elizabeth Nelson and Myrth Rogers went to Navasota yesterday to attend a german there last night.

The team during its triumphal tour through the South. He kicked eleven goals in one game.

Born to Dr. and Mrs. R. H. Harrison yesterday, a fine boy.

The following directors of the First National Bank were elected yesterday. Dr. J. W. Howell, Guy M. Bryan, L. L. McInnis, T. B. Graham, H. O. Boatwright. Officers were reelected, as follows: Dr. J. W. Howell, president; Guy M. Bryan, vice-president; H. O. Boatwright, cashier; L. L. McInnis, assistant cashier.

Prices were quoted in Bryan yesterday as follows:

Cotton.  
Good ordinary 4 7-16c  
Low middling 5 3-8c  
Middling 5 1-4c  
Good middling 5 1-2c  
Middling fair 6 11-16c  
Produce  
Eggs 5c.  
Chickens \$1.50 per doz  
Beeswax 17c per pound  
Turkeys 35 to 40c each  
Honey 6c per pound  
Country lard 6c per pound  
Butter 10c per pound  
Bacon, 6 1-2c per pound  
Irish potatoes \$1 per bushel  
Sweet potatoes 75c per bushel  
Onions 3c per pound  
Dried peas 2c per pound  
Corn 40c per bushel  
Hay \$7.50 per ton.  
Wood \$1.75 per cord.  
Cotton seed \$5.00 per ton.

## SIGNAL CORPS WILL ASSEMBLE AT COLLEGE FIRST OF DECEMBER

From Friday's Daily Eagle  
A unit of the Signal Corps of the United States Army, consisting of about 175 men, will assemble for training at the Texas Agricultural and Mechanical College on December 1, 1917, according to information received by President Bizzell from Major A. T. Clifton of Fort Sam Houston, who is in charge of the Signal Corps work for the Southern Department. Major Clifton advises that active recruiting for this unit of the Signal Corps is now going on. "It is intended to select the men for this training with the utmost care," he said, "so that a picked class will be sent."

"We are experiencing quite a little difficulty in obtaining suitable men for this purpose," Major Clifton continued, "and from the present outlook it is not believed that the men will be ready to be sent to College Station before the first of December, unless enlistments are faster than at present."

President Bizzell stated today that definite plans were under way for taking care of the Signal Corps men while in training at the College.

## PEANUT CROP LARGER THAN EVER HARVESTED

Washington, Oct. 25.—The largest peanut crop ever grown in this country will be harvested within the next few weeks. Whether it can be saved in its entirety for food and feed will depend upon the care with which it is harvested and stored, declare specialists of the United States Department of Agriculture. Accordingly a brief circular carrying suggestions as to the right ways to dig, dry, pick, and store the peanut crop has been prepared by the department for immediate distribution.

Many farmers, the specialists point out, are growing peanuts for the first time this year. Mistakes at harvest time may result in heavy losses to their crops. The methods which the specialists describe in their circular are those practiced by the most successful growers. Beginners are urged not to begin the harvest too soon as immature nuts shrivel and are light in weight when cured. No rule can be given as to the exact time to dig, but in general, harvest should begin when investigation shows that the vines have the greatest number of mature pods. In the lower South, where frosts do not occur until late, the vines have a yellowish appearance when the peanuts are mature.

The circular will be mailed to growers of peanuts on request.

## UNIVERSITY TO GET APPROPRIATED MONEY

(By Associated Press)  
Belton, Texas, Oct. 27.—Judge Spann refused to grant the temporary injunction to W. V. Dunnam restraining State Comptroller Terrell and County Tax Collector Nelson from paying the money appropriated by the legislature for the university of Texas.

## COTTON GINNED 5,571,624 BALES

(By Associated Press)  
Washington, Oct. 25.—Cotton ginned prior to October 18, amounted to 5,571,624 bales, counting round as half bales, the census bureau announces. Ring 42 and G. D. Tucker will sell you all kinds of feed, cheap for cash.

# MAXWELL

Most Miles  
per Gallon

Most Miles  
on tires

The Maxwell actually earns a profit for you.

Webster defines profit as follows:

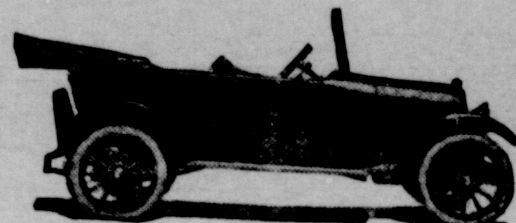

"Accession of good; valuable results; useful consequences; benefit."

An automobile saves your time and energy.

And a Maxwell motor car accomplishes that saving on an outlay of only \$2 a week to run the car.

We know of no more profitable method of investing \$2 a week.

No man in ordinary circumstances can afford not to own a Maxwell.

Touring Car \$745

Roadster \$745; Coupe \$1095; Berlinette \$1095; Sedan \$1095 All prices f.o.b. New York

Webb Motor Car Company  
BRYAN, TEXAS

# A Good Start For 1919 Cotton Crop

We will give three bushels of selected Mebane cotton seed for five bushels of common seed. This is an opportunity every farmer should take advantage of. The best way to start a big cotton crop next year is to get good planting seed.

"A HOME INSTITUTION"

## GIRLS! WHITEN SKIN WITH LEMON JUICE

Make a Beauty Lotion for a Few Cents to Remove Tan, Freckles, Sallowness.

Your grocer has the lemons and any drug store or toilet counter will supply you with three ounces of orchard white for a few cents. Squeeze the juice of two fresh lemons into a bottle, then put in the orchard white and shake well. This makes a quarter pint of the very best lemon skin whitener and complexion beautifier known. Massage this fragrant, creamy lotion daily into the face, neck, arms and hands and just see how freckles, tan, sallowness, redness and roughness disappear and how smooth, soft and clear the skin becomes. Yes! It is harmless, and the beautiful results will surprise you. Adv.

## GREAT CROWD AT TABOR WELFARE CLUB

From Saturday's Daily Eagle  
The Welfare club of Tabor met at the high school building Friday night and the attendance surpassed all previous meetings. The people of that section of the county were present and the crowd was estimated at from 300 to 500 people.  
A splendid program was rendered, consisting of recitations, songs, etc. One of the most interesting features of the program was a story by Master Morris McKnight, son of Mr. and Mrs. McKnight, of this city. Some in the audience remarked that if little fellow had not been introduced, they would have known him anyway because he was so much like his father.  
A box supper was given for the benefit of the three schools of the district and the splendid sum of \$70.30 was realized.  
These community welfare meetings in the county, which are largely due to the efforts of County Agent C. L. Beason, have aroused the people of the rural districts as nothing else has, and it requires no prophet to see the ultimate great good in which they will result.

**ANTIS WIN IN BURLESON.**  
Caldwell, Texas, Oct. 26.—In the local option election held in Burleson county yesterday, the anti-prohibitionists won by a majority of 177 votes the complete returns from the election being 1,127 for prohibition and 1,304 against prohibition.

King G. D. Tucker for all kinds of feed. He sells for less.

Use Zensal for that itching eczema. Sold by Smith Drug company.

## WAR REVENUE BLANKS BEING SENT OUT

(By Associated Press)  
Austin, Tex., Oct. 30.—The internal revenue department for Texas has just completed the task of mailing out instructions and return blanks to those in the state affected by the war excise taxes provided for in the recent war revenue law now in effect. Certain classes of manufactured articles, in the hands of the manufacturer, producer or importer on October 4, and after, are made to bear an excise tax of 2 to 5 per cent. of the selling price, and when in the hands of the wholesaler and jobber they bear one-half as much as in each case. All those subject to pay the tax are required to make a sworn return of the stock on hand October 4.

**MARRIAGE LICENSE.**  
From Saturday's Daily Eagle  
Hugh J. Smoot and Mrs. Mittie J. Mitchell.

**\$100 Reward, \$100**  
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address P. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, 75c.

## MILLION RABBITS TO TAKE THE PLACE OF POULTRY AS FOOD

(By Associated Press)  
Austin, Texas, Oct. 29.—As a result of the campaign instituted some time ago by Fred W. Davis, state commissioner of agriculture, for the consumption of rabbit meat as a substitute for chicken and turkey, a gigantic plant for the production of frozen rabbit meat is to be established at Waco, according to E. W. Cole, director of markets, department of agriculture.  
The promoters of this enterprise are prominent Waco business men, and they are in the market for over a million rabbits. The plan is to dress and freeze the rabbits for exportation to the foreign governments that are allies to the United States. The head of this firm wrote Mr. Cole that they would pay the highest market price for rabbits and will take all that are offered.

## Many Horses Listed for Army Inspector

From Monday's Daily Eagle  
The Eagle is informed by County Agent C. L. Beason that it is likely another inspection for war horses may be held in Bryan in the near future. He is advised by the quartermaster's department at El Reno that the request for a second inspection has been referred to Captain Stanley Koch, who was here recently and he will write Mr. Beason in regard to the inspection. There have already been 150 or 200 horses listed for this second inspection and Mr. Beason says he believes 500 horses for the army could be secured here if only proper notice was given.

## 70 NEGRO SOLDIERS LEAVE TODAY FOR TRAINING CAMP

*Were Entertained at Church Service Last Night  
---Patriotic Speeches Today and Patriotic Songs by School Children---Soldiers Served With Lunches and Presented Comfort Kits.*

From Tuesday's Daily Eagle  
Bryan and Brazos county's first quota of colored troops went forward today to Camp Travis, San Antonio, where they will be trained for service at the front. The order came to the local board several days ago to send 70 men on the 30th, and notification cards were immediately mailed out to 100 men from which to make up the required number. Brazos county has 146 accepted colored troops from the first call.

Early Monday morning the men called began to gather in the city, their order being to appear at the office of the board at three o'clock in the afternoon, and after the noon trains, which brought those from the southern portions of the county, the streets were pretty well filled with the troops and their friends. Promptly at three o'clock, Burney Goosby, one of the veteran colored leaders of Bryan, sounded the bugle call and the street between the City National Bank and Hardy Newton's store was soon a mass of colored people. After the men assembled, Lieutenant Evans, who was recently commissioned at the colored training camp at Des Moines, Iowa, was called upon and made a short but most timely address to the young colored men about to enter the service of their country as soldiers. He stressed the importance of the work before the country, the obligation to make good and urged them to enter the army with the determination to make good and faithful soldiers. He outlined what their duties would be and impressed upon them the necessity for promptness and absolute obedience to their commanding officers. "Above all things," said the lieutenant, "don't go into the war halfheartedly, throw your whole soul into the great work ahead of the American people and by so doing you will make an honorable name for yourself and win the respect of your fellow soldiers and your fellow citizens."

The men then stepped into line as their names were called, answering almost to a man. After roll call they were given instructions as to meals, sleeping accommodations and their general department until time for training. R. B. Goosby had been appointed to look after the comfort of the men from a distance, who were to spend the night in the city. The particularly unanimous response of the men called, and their willingness to go, was warmly praised by the members of the local board.

**Night Entertainment.**  
A special service for the soldiers at Shiloh Baptist church was arranged for last night and a large crowd was present. The program as carried out was as follows:

Prayer.....Rev. D. H. Shivers  
Prayer.....Rev. E. Cannon  
Short talk.....Rev. G. W. Stovall  
Address.....Dr. Hammond  
Short talk.....Dr. Thompson  
Short talk.....Hon. R. B. Goosby  
Address.....Rev. W. H. Jackson  
Address.....Rev. I. W. Hamilton  
Solo.....Mrs. B. E. Stevenson  
Benediction.

Following the services at the church an entertainment was given the soldiers at the West Side park and the festivities did not conclude until the early morning hours.

**Final Roll Call.**  
At 10:30 this morning the bugle of Veteran Boosby again called the men to the street between the City National Bank and Newton's store, where the

last roll was called and they were given final instructions. Following the roll call the men were placed under the direction of Henry Andrews. Will Nash and Aubrey Finley, who will be in command until Camp Travis is reached. Headed by James Lokelton, the tallest man in the company, carrying an American flag, the men marched in twos to the vacant lot just south of the hotel Bryan where the speaking was held.

**Public Exercises.**  
E. W. Thomas was master of ceremonies and conducted the program. The first speaker called was R. B. Goosby, who declared this to be the proudest moment of his life. Proud because of the fact that the American nation had recognized the negro as a soldier with all the nationalities of the world. He declared that he was an old man, born in 1854, but felt like going himself. He urged the men to go to the front and fight for freedom, warning them that if they were conquered by the kaiser they would be slaves for the rest of their lives. To fight for their homes, their wives and their children, their fathers and their mothers, pledging them the support of their friends while away, in the protection of their families. He closed by urging them to do all in their power, but if it became necessary to let us know and all who were left behind would come to their rescue.

Gen. H. B. Stoddard, the venerable veteran of the Confederacy was the next speaker and commanded the hushed attention of all. After complimenting the men upon their willingness to go he impressed upon them the necessity of going now rather than waiting until the enemy came across and made them slaves for all time. He was glad to see their loyalty and hoped the day would never come when they would forget their duty to their home and their country. And while away in the training camps and on the field of war, he urged them not to forget that their mothers were the best women in the world and that if they did not believe that, not to go, as they would never make good soldiers. He told them their lives belonged to their country, and to remember the golden rule in their conduct as soldiers and do not others as they would have others do unto them. He closed by wishing God's blessings upon them and hoping that they may come home safely.

Rev. W. Hartley Jackson was next called. He said he was glad of the hour. Glad for democracy. Glad that these men had been drafted to go and make democracy safe for this country and the rest of the world. These going to the front had the best opportunity they had ever had and after the war was over the negro would stand better and higher than he had ever stood before, and occupy a plane they had never occupied before. He was proud of President Wilson (cheers), proud of Secretary of War Baker, and proud of the American army. He urged the boys that when the time to shoot came, to shoot straight. They should be proud of the war as they had been given a place of recognition and told them to fight to win and said that anything anybody else could do to be brave, honest, true, not to drink and not to gamble. He urged them to be Christians because they never knew when their heads would be blown off and they should be ready to go home to God. He prayed God's blessing upon

## POULTRY AND EGGS WILL BE PLENTIFUL

From Thursday's Daily Eagle  
Allen Smith, leading poultry dealer of this city and section of Texas, has just returned from a trip over his trade territory, including all this immediate section and a large portion of east and north central Texas. Mr. Smith stated to a representative of The Eagle today there was no danger of a shortage in the poultry supply for this season. Particularly is this true of chickens, the supply of which will be greater than ever before. The turkey supply will also be sufficient to meet all demands, but Mr. Smith does not think the receipts will be as heavy as in former years. However, no one need feel any misgivings as to his ability to procure one of these noble birds to grace the festive board on Thanksgiving and Christmas, provided he has the price. The egg supply will also be plentiful.

Mr. Smith is now shipping dressed chickens and has recently filled an order for four thousand dollars worth of dressed chickens to one man to be used in feeding our soldiers while being transported from one place to another. The turkey season will not open before November 15th.

As to prices, Mr. Smith says there is no doubt but poultry of all kinds will be higher than ever before, but it is impossible now to tell what prices will be when the season is further advanced. Turkeys are now bringing 18 cents per pound, hens 18 cents and fryers 25 cents. He is paying 38 cents per dozen for eggs.

Mr. Smith is opening a poultry dressing plant in Navasota similar to the plant in this city, including cold storage. He says he does not like the idea of branch houses, but in this case is compelled to take the step in order to facilitate the handling of his business.

From the above facts as outlined by Mr. Smith as to the poultry business, it is not difficult to discern that the man who has a turkey or chicken crop coming on, or a surplus of eggs, is the man who will have a bank account to draw on in these days of stress.

## Inch of Snow and 59 Degrees Drop

(By Associated Press)  
Dalhart, Texas, Oct. 29.—An inch of snow fell during the night. The thermometer registered seventy last night but dropped to eleven degrees by morning.

## Community Meetings Draw Large Crowds

From Monday's Daily Eagle  
County Agent C. L. Beason reports that he and Mr. H. L. McKnight attended two interesting community welfare meetings Saturday night. The meetings were held at Harvey and Steep Hollow and at both places large crowds were in attendance and splendid programs were rendered. These meetings are taking a strong hold upon the people and already the good effects are to be seen in closer relationships and closer co-operation among the people of the rural communities.

## Tabor

Tabor, Oct. 29.—Jack Frost visited us Friday night, killing nearly all the plants that the drought had left. Some of the farmers are busy digging their potatoes, and are making very good crops in spite of the dry weather.  
Tabor is looking natural again now, as the former storekeeper, Will Presnal, has returned home from the training camp and has taken up business again. The reports that the other Brazos county boys are being well cared for.

Estee Harrison was called home from Camp Travis Friday on account of the death of his sister, Mrs. Mat Glover. Mrs. Glover was buried at Alexander Friday afternoon.

Mr. and Mrs. John Moore were visitors at Tabor Sunday.

The community welfare club will be turned into a box supper Friday night October 26. The proceeds received therefrom will be used for the benefit of the schools. The ladies are invited to come and bring well filled boxes and the gentlemen well filled pocket books.

## FIREMEN'S CARNIVAL.

From Monday's Daily Eagle  
A contract has been signed between the volunteer fire department of Bryan with a carnival company to show here in the near future. The fire boys are to receive fifteen per cent. of the gross receipts as their share, and the city is to furnish free lights and charge no license fee. It is hoped to raise the funds in the treasury of the firemen very materially by this method.

## THE OLD RELIABLE BRAZOS CHILL TONIC

The reliable and never failing antidote for Malaria, Chills and Fevers. Ask for the genuine Brazos Chill Tonic. Sold in 50c bottles at Emmel's Drug Store.

## SKILLED PHYSICIANS

Prescribe Dry Zensal for Eczema because they get results quickly and surely. They know that a cure-all will not reach the different types of Eczema, hence these two clean, odorless ointments are used daily in their practice. 75c a jar.

## ROBERTSON COUNTY VOTES PROHIBITION

Franklin, Texas, Oct. 25.—Robertson county voted "dry" yesterday by a majority of 655 votes. The total vote was: For prohibition, 1412; against prohibition, 764.  
This election affects Hearne, where six saloons will be put out of business; Mumford, closing two saloons, and Benchley, shutting up one saloon. All other towns and communities in Robertson county long since went dry by local option elections.

The election was especially spirited in the communities that have been "wet." In Hearne the prohibitionists arranged a parade on Tuesday, in which 169 automobiles participated.

## Army Develops Men Says Sergt. Hanway

From Monday's Daily Eagle  
Sergeant John Hanway spent a few hours here Sunday visiting his family and friends. He has the privilege of leaving camp for the week-end but must be back at reveille Monday morning, thus necessitating his return Sunday afternoon, giving him but a few hours here, as the trains run. However, he made the rounds and grasped the hands of a large number of friends, told them of army life, that he had gained several pounds in weight, is feeling fine and likes it. He says there are hundreds of boys in camp who are receiving better fare and better care in every way than they ever had before in their lives. The work is hard, involving as it does the acquirement in a brief time of a lot of knowledge, but that knowledge covers a wide field from washing dishes and clothes to the handling of men. A soldier, when he completes the course prescribed by Uncle Sam, is capable of taking up almost any walk of civil life he may choose. The pay is good, far better than some have ever been able to make in civil life. "Some of the boys asked me," he said, "which is the easiest job in the army, and I told them there is no easy job. It is all hard work, but it makes a man of one."

As for himself he is taking measures to get into the aviation corps, and expects soon to take an examination, passing which he will go to Fort Sill, Oklahoma. Having the weight, education, military training and natural alertness he has no fears about being accepted.

He says the present contingent at Camp Travis he expects will begin to move to the coast about the first of the year, on their way to the war zone.

## Your Last Chance to Buy these Bargains

AT

M. BONNEVILLE

On the Corner West of Main Street

Racket Store

MORE GOODS FOR SAME MONEY.

SAME GOODS FOR LESS MONEY.

Thousands of people will be disappointed later on in not getting the goods they want. No condition has ever existed since Civil War, as confronts the trade today. The output of the manufactory is getting less, and the sumption becoming greater. It is getting to be a serious matter to get goods, and I suggest that you protect yourself against the near future. The person who thinks Goods are going to get cheap soon, is badly mistaken, for there is no possible reason for such a thing to happen. We don't holler wolf, or intend to excite anybody into buying, but we believe you would like to know what we think of the situation. We are working harder than ever in trying to buy merchandise for you, to sell for less than regular prices and so we can sell quick and we feel we are meeting success. These goods we now offer are cheap on today's market and we suggest to our customers to take every advantage of these goods we now offer, before prices advance.

# HENRY EXALL HIGHWAY MEETING HERE STARTS INTENSE INTEREST

From Tuesday's Daily Eagle  
L. S. Franklin, secretary of the Henry Exall Highway association spoke this morning to a full house in the commercial club rooms and again this afternoon at Millikan in the interest of the highway and good roads generally. One outcome of his talk this morning was a movement to get 100 members of the association in this county at \$3 a year, and to this end the eight members of the advisory committee in this county, of which E. J. Fountain is chairman, with eight others are to solicit membership.

Mr. Franklin went into a clear revelation of the highway which is to run from Denison on the north to Galveston on the south and be erected as a memorial to Henry Exall, founder of the Texas Industrial congress and a man who gave freely the latter years of his life to the improvement of agricultural conditions and rural life in Texas. The highway has not been fully designated by the state commission, but will be on or about November 15 at a joint meeting of the commission and the association delegates in Dallas on that date. The counties adjoining Brazos on the east are making a strong effort to secure the highway, and have been stimulated into a movement to improve their roads with a view of securing the designation, and have determined that whether they get the designation they will have a state highway, advertise it and attempt to divert travel that way.

Mr. Franklin made several points as to the benefits to be derived from this highway. He said that last year the Dallas automobile club indicated to 6,000 auto tourists the proper route to take to Galveston. Had this highway been designated and constructed there would have been twenty thousand of them, he said. They must stop at important towns for meals and repairs, but occasionally a man likes the looks of a town and locates there, or if he be a farmer he seeks out a piece of land and buys it near the town he likes, and induces his friends to join him. It means a building up of the country to have such a highway.

He said that railroad building in this country had come to a standstill and he did not expect to see much of it in this generation. Railroad companies are not good investments any more. They do not bring the returns. The automobiles are taking the place of them in many ways. He stated that last year 600,000,000 barrels of gasoline had been used in automobile traffic. The auto truck is just coming into large use, one of the developed enterprises of which he spoke being a truck service between New York and Baltimore on schedule and they make the schedule. Within five years, with this highway built, he predicted that truck companies would be organized and running their trucks out of Houston, Dallas and other cities to such places as Bryan, loading at the wholesale houses in the larger cities and discharging their cargoes at the back doors of the mercantile establishments in Bryan. Just as soon as the war is over he predicted that this business would be wonderfully stimulated.

Another reason for putting the highway via Bryan is because of the Texas A. and M. college being here and on the road that would be designated. This is a state institution, one that was fostered and encouraged by Colonel Exall, from whose lips and literature thousands of farm boys and girls in Texas have heard of it, and who has encouraged them to enter its doors; an institution that has sent men and women out over the state and has done and is doing a wonderful work. People of Texas want to join their institution, and people from the other states will have the same desire through curiosity, if nothing else, for the fame of the college is widespread.

Mr. Franklin explained that the membership fees collected will be spent on the sanction only of the executive committee of which John Sealy of Galveston is chairman and other members of his standing are members. It will be used to spread the fame of the counties and town along the route in a Henry Exall magazine; it is information that will be published in the log books and the advertising itself will be of immense value to the cities and counties who are fortunate enough to be on the highway.

# CONDEMNED TO DEATH

This is not the story of a traitor or a German spy. It is the amazing recital of Joe O'Brien, about his terrible case of Bright's disease. The doctors said it could not be cured. His condition was pronounced hopeless, not only by private physicians, but also by doctors at the hospital. He went nearly blind. On advice of physicians he started to a noted hospital in New Orleans to have an operation performed on his kidneys. But he never arrived there. He got so much worse on the train that the train crew put him off, thinking he was going to die. A good Samaritan took him in, nursed him and gave him medicine that restored him to health. If you are afflicted with Bright's disease, or any disease of the kidneys or bladder, by all means write for a free copy of the "Hobo" booklet containing the story of Joe O'Brien, as well as sworn testimony from many others who testify they have been absolutely cured by the Hobo Kidney and Bladder Remedy. You can get the remedy from your druggist or from the Hobo Medicine Manufacturing Co., Singer, La., direct. Price, \$1 per package. M. H. James, Bryan Texas. Adv.

Neuralgia of the face, shoulder, hands, or feet requires a powerful remedy that will penetrate the flesh. BALLARDS SNOW LINIMENT possesses that power. Rubbed in where the pain is felt it all that is necessary to relieve suffering and restore normal conditions. Price 25c, 50c and \$1.00 per bottle. Sold by M. H. James, Adv.

Ring 42 and G. D. Tucker will sell you all kinds of feed, cheap for cash.

way. All newspapers will give the movement wholehearted support. The highway itself will be lined with suitable and distinctive markers, the insignia of which will be on the buttons to be furnished members. Mr. Franklin had with him artists' drawings of the buttons, but he had not yet fixed upon the design. He declared it would mean more to Bryan than a new factory.

He insisted strongly that the people of Bryan have a most wonderful opportunity to help themselves at smallest cost, if they will but wake up and get busy. The membership of 100 in this county would mean one hundred good roads missionaries, for the highway association would furnish literature and stimulus that would give them "pep," as he expressed it. When other good roads propositions should come up they would be on hand to back them.

As to the places where the membership fee would go, it would be used for the running expenses of the organization, and he hoped there would be sufficient money with which to pay for markers, which are to be strong and permanent. Outside aid would be expected from other sources, such as that of Henry Ford, and he predicted that within five years the highway would have a good road from Denison to Galveston.

He answered a number of questions at the end of his talk, and then arrangements were made to get the desired membership and to have a big crowd attend the Millikan meeting this afternoon, where Mr. Franklin delivered a good roads talk.

John A. Moore presided at the meeting, which was attended by a room full of directors and business men, who were deeply impressed with the talk of Mr. Franklin.

In this connection it may be stated that P. H. Arrington has the petition for a good roads bond issue in the Millikan precinct in charge, and he stated last evening that he had secured the signatures of thirty-five property tax payers and voters, out of the necessary fifty. Mr. Arrington is confident that he will have all the signatures he wants and more, before the next meeting of the county commissioners.

# MILLIKAN

Millikan, Oct. 31.—On Friday night October 26th, at their home, Prof. and Mrs. J. W. Tarlton entertained the seniors of Millikan high school with a masquerade party. This being in recognition of halloween everything bore a "spooky" appearance and the majority of the crowd were dressed as ghosts.

Many varieties of games and contests were witnessed and one creating excitement and lots of fun, was pitching apples through a horse shoe. Each guest was given three apples and only one trial was allowed. If they pitched all the apples through the shoe, they were to marry within the length of two years; if two apples went through it was the sign of wealth; one meant health, and those who got none, were to be old maids or bachelors.

The guests were then taken into a far corner of the yard where a large sand pile awaited them. They were each given a small shovel and told to "dig for their treasure." On digging each was awarded for the hard task a rosy-cheeked apple, that smiled at them from the sand pile.

Of course it would not be halloween without a fortune teller. Miss Nannie Mae Williams, desires the credit of being the most perfect imitator of a "witch" ever witnessed by any present. So the crowd gathered in a far away corner, very dark, with only the light of one huge jack-o-lantern. Where the "old witch" was seated and surrounded by walls of moss. There each received a tiny card tied with yellow and black ribbons. These held the directions written in rhymes of where they were to find their fortune. Then the fun began. Everybody looking for their "fate" which were hidden in old shoes, buried in conspicuous places, in old coffee pots, over doors, under rugs and various other places of interest.

Punch and lemonade were served under a large oak tree, entirely surrounded by jack-o-lanterns. Last, but not least, the guests repaired to a western corner of the lawn, where they found a huge bonfire. As each approached they were given long pointed sticks, and a good size slice of nice "streaked" bacon. They were then told to "prepare their own refreshments." After the bacon had broiled to a crisp golden brown, sliced pickles and bread were passed and all enjoyed a lovely "sandwich" cooked by themselves over the bonfire. Everybody declared they had never eaten such delicious food in all their lives.

Music furnished throughout the evening by piano, ukelele and guitar. Time for departure came all too soon but all guests expressed themselves as having had the best time of their lives and claimed that Mrs. Tarlton was an ideal entertainer.

Out-of-town guests who were present, were: Theron Hensarling of Bryan; Bowden Oliphant of Shiro; Max Oliphant of Shiro; Willis Fuqua of Anderson and Rema Gandy of Bryan.

Neuralgia of the face, shoulder, hands, or feet requires a powerful remedy that will penetrate the flesh. BALLARDS SNOW LINIMENT possesses that power. Rubbed in where the pain is felt it all that is necessary to relieve suffering and restore normal conditions. Price 25c, 50c and \$1.00 per bottle. Sold by M. H. James, Adv.

Ring 42 and G. D. Tucker will sell you all kinds of feed, cheap for cash.

# LIKE AN ELECTRIC BUTTON ON TOES

Tells Why a Corn is so Painful and Says Cutting Makes Them Grow.

Press an electric button and you form a contact with a live wire which rings the bell. When your shoes press against your corn it pushes its sharp roots down upon a sensitive nerve and you get a shock of pain.

Instead of trimming your corns, which merely makes them grow, just step into any drug store and ask for a quarter of an ounce of, freezone. This will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. A few drops applied directly upon a tender, itching corn stops the soreness instantly, and soon the corn shrivels up so it lifts right out, root and all, without pain. This drug freezone is harmless and never inflames or even irritates the surrounding skin. —Adv.

# BRAZOS BOHEMIANS SHOWING PATRIOTISM BY PURCHASING BONDS

The patriotism of the Bohemians of Brazos county is shown by their liberal subscriptions to the second liberty loan bonds. To date eighteen have made investments in bonds through the First State Bank and Trust Company, thirteen of them coming in Wednesday at one time. The greater part of them are members of the Slavonic benevolent order. Following are the names and amounts subscribed:

Josef Zitek	250.00
Henry Blazek	100.00
Lee Lys	100.00
John Milberger	300.00
Jos. Novosad	50.00
F. V. Rycklik	50.00
Frank Janicek	200.00
Edd Chytil	100.00
John Schovajsa	50.00
Mrs. Fannie Chytil	100.00
Tom Ventreok	50.00
J. F. Scata	200.00
V. J. Boriskic	50.00
Joe Palser, Jr.	100.00
ohn Kosarek	100.00
Nalzer heirs (P. J. Vytopi Guardian)	400.00
Mrs. Anna J. J. Scata	100.00

TOTAL \$2,400.00

Colonel Ouseley in his address last night, stated that while discussing the situation with a banker in Caldwell yesterday, a Bohemian farmer came in to collect for three bales of cotton he had sold. He asked for all the money save one hundred dollars which he desired to invest in liberty bonds, remarking that his boy was in the army to save his country and he wanted to invest his money to save his boy.

Major McNelis of the First National Bank stated that one young man, now in the army, came into the bank on the eve of his departure and invested one thousand dollars, all the money he possessed in the world, in bonds. By this patriotic act he showed his loyalty to his country, offering his money for the prosecution of the war and his life if need be at the front.

The whole country from one end to the other is aflame with instances of sublime patriotism, brought out and emphasized by these war loans, and as the war advances and the needs of the country become greater, the greater will be evidences of heroic self sacrifice on the part of the people.

Judge J. T. Maloney, who is in charge of the sale of bonds in Brazos county and who presided at the meeting last night, stated to The Eagle representative today that the splendid sum of \$23,500 was subscribed at the meeting.

The exact amount subscribed in this county to date is not known as there are so many different agencies through which subscriptions are being made.

# TRY IT! SUBSTITUTE FOR NASTY CALOMEL

Starts Your Liver Without Making You Sick and Cannot Salivate.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place. "Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs 50 cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition.

Ring 42 and G. D. Tucker will sell you all kinds of feed, cheap for cash.

# BRYAN FARM LOAN ASSOCIATION MEETING

The members of the Bryan and Brazos County Farm Loan association held a meeting Friday with Guy P. Bittle, acting chairman, presiding. W. S. Higgs, who has served the association so efficiently as secretary from its organization to the present, tendered his resignation because of the press of private business. Hon. Stuart Barron was elected to fill the vacancy.

The Eagle was informed by Chairman Bittle that the appraisers will be here today to appraise the value of the lands of the members asking for loans.

The secretary was ordered to communicate with W. E. Gandy in regard to the best route for the appraiser from the federal loan bank.

The secretary was instructed to get a list of all bills due by the association and to collect \$2 each from all charter members as appraiser's fees. The secretary was also instructed to collect \$2.50 application fee from each applicant not a charter member.

Local appraisers were allowed \$3 per day each for their services while appraising. An inspection fee of \$5 from all new applicants was ordered to be collected.

# FREE TO CANCER SUFFERERS.

A new book on cancer has just been published by Dr. O. A. Johnson, Suite 560, 1320 Main St., Kansas City, Mo., which shows how cancer is being treated by a combination medical treatment that proves most effective. There is no longer any question or doubt about the successful treatment of most kinds of cancer if taken in time. Absolute proof of this treatment can be verified by living witnesses who were treated three to seventeen years ago. Write today for this valuable book. It will be sent free for the asking.

Dr. W. H. Lawrence dental office, top floor new City National bank building, phone 521.

# FOR SALE

FOR SALE—Half interest in modern grocery, doing profitable business. Part cash and good paper will handle proposition. Address C. C. care Eagle.

# COULDN'T WALK ABOUT HOUSE WITHOUT HELP

Texas Man Took Electric and Antitoxin Treatment For Rheumatism Without Relief—Gains 20 Pounds on Tanlac.

"I had dropped down in weight from one hundred and seventy pounds to a hundred and twenty-seven and had little hope of ever getting well, but I have gained at least twenty pounds in the past sixty days and my wonderful recovery makes me want to tell everybody what Tanlac has done for me." This remarkable statement was made by A. W. Bruce, 825 Avenue G., Galveston, Texas, a few days ago.

"On the seventeenth day of last June," he continued, "I was stricken with rheumatism in my left foot. I distinctly remember it was the seventh because I was fixing to go to a double header baseball game at Houston the next day. Well, I was taken down and the trouble was pronounced a very stubborn case of inflammatory rheumatism.

"I can't tell you in words how much I suffered, but my wife can tell you what I went through and what she went through nursing me. I tried electrical treatment but it did no good. I took the antitoxin treatment for rheumatism, and did everything else, but nothing helped me and finally I was told there was nothing more that could be done for me.

"I suffered so day and night that I couldn't sleep or move myself and my wife got so worn-out she had to get her sister and her sister's husband to come and sit up with me at night. Then I went to Marlin, Texas, and had to be carried down and put in an automobile and on the train, and when they started with me I never expected to come back alive. I stayed there three weeks and took the full course of treatment and baths. I believe I did get a little relief from this, but it was hardly noticeable.

"When I came home I just could manage to hobble around a little on crutches. On nice days, with the help of my wife and the crutches, I could get from my room to the porch. I had no appetite at all, what I forced myself to eat did me harm in place of good, and it was alarming the way I was losing weight.

"Just about this time a friend-told my wife about Tanlac and I had taken so many different kinds of medicine that I had no faith in anything and it irritated me for anybody to suggest another. But my wife insisted on my trying Tanlac, so we telephoned the drug store and had them send out a bottle. I took this bottle and another without feeling any benefit and I tell you I was absolutely discouraged and wanted to give it up. But we got a third bottle and on this one I began to get better and when I finished it I was so much better I was able to walk to the drug store myself and get the fourth. I have now taken six bottles and I am a happy man. All my rheumatic pain is gone, my appetite is splendid, and I am resting fine every night. I have already gained at least twenty pounds and I am building up in weight and strength right along. My recovery from my awful suffering is enough to make me praise Tanlac and I am glad to tell everybody what it has done for me."

Tanlac is sold in Bryan by N. A. Stewart, in Wellborn by J. P. Royder, in Edge by Moore & Payne, in Allen-tarm by Terrell Brothers and in Tabor by J. K. Presnal.

Ring 42 and G. D. Tucker will sell you all kinds of feed, cheap for cash.

# CONTINUE MERKA AND COLLINS MURDER CASE

From Thursday's Daily Eagle  
The case of Anton Merka, charged with the murder of Jasper Gilmore near Smetana some months ago, was set for trial in the district court today and a large number of witnesses and spectators were on hand. When the case was called neither side announced ready for trial, but instead the defendant, through his attorney, Judge V. B. Hudson, filed a motion for continuance alleging the absence of important witnesses and upon its presentation the case was continued by Judge Morehead to the February term of court and set for February 27th.

The case of Alfred Collins, colored, charged with murder, was also called today and continued on the ground of absence of witnesses. District Attorney W. C. Davis stated to a representative of The Eagle that the continuance of these two cases concluded the criminal docket for this term. This is the last week of the court and the remainder of the time will be devoted to civil matters.

# POULTRYMEN CLOSING UP BIG SHOW PLANS

From Wednesday's Daily Eagle  
The members of the Brazos County Poultry association held an important meeting last night at the commercial club rooms and discussed a number of matters looking to the success of the big poultry show to be held December 6, 7, 8 and 9th.

The matter of cash premiums was carefully considered and settled on practically all the events in which these are to be offered. The amount of cash premiums will total practically \$400.

The association decided there shall be two classes of exhibitors, amateurs and professionals. By this arrangement there are many farmers who will be eligible to the amateur class who could not take part in the show if limited only to professionals. The directors hope the farmers of Brazos county will not hesitate to come right on in and show their fowls, making entry in whatever class their birds belong.

The catalogue and premium list of the big show are now in press and the association hopes to have them ready for distribution in a few days. In the novelty exhibits—the "crowing rooster" and the "foraging hen," the premiums for each will be \$5. There will be no second premiums in these contests.

After discussing other matters for the welfare of the association and the success of the show, the meeting adjourned.

# Tabor

Tabor, Oct. 31.—The coldest norther we have had blew up Monday morning about three o'clock. It seems like hog-killing time now.

The community welfare club had its regular meeting at the high school Friday night. This time it was announced as a box supper. Quite an interesting program was rendered by the five schools in this district. Then J. L. Coff and G. P. Edge sold the boxes, fifty-six in number. They were sold to the highest bidders. A cake was offered to the most popular young lady present. Miss Lois Wilcox was the lucky girl. C. L. Beason won a bar of soap for being the ugliest man in the crowd. The sum collected, which was \$70.30 to be used for the benefit of the schools.

A house on George Fullerton's place burned Monday morning about five o'clock. It was occupied by Lee Wilson and family. All the contents of the building were burned, the members of the family escaping with their clothing. Their generous hearted neighbors and friends went to work Monday and collected a nice sum of money and some clothes for them. Mrs. Wilson is ill but not seriously.

Mr. Johnson, an old settler here, died Saturday night. He had been ill for some time.

Walter Holden has purchased an Overland.

SURGEONS agreed that in cases of Cuts, Burns, Bruises and Wounds, the FIRST TREATMENT is most important. When an EFFICIENT antiseptic is applied promptly, there is no danger of infection and the wound begins to heal at once. For use on man or beast, BOROZONE is the IDEAL ANTISEPTIC and HEALING AGENT. Buy it now and be ready for an emergency. Price 25c, 50c, \$1.00 and \$1.50. Sold by M. H. James, Adv.

# DISTRICT COURT.

H. S. Morehead, Judge.  
From Saturday's Daily Eagle  
T. P. Hall and W. T. Crenshaw vs. Martin Carr et al, suit on note and for foreclosure of lien. Judgment for plaintiff for principal, interest and attorney's fees, on note, aggregating \$715, with interest from date at 10 per cent and for foreclosure.

Sentences were formally imposed on the following: Ed Shannon, murder, six years; Pearl Wilson, burglary, ten years; Frank Pomilla, burglary, ten years; Joseph Jackson, burglary, two years.

J. L. Fountain, guardian of Charlotte, Ellen and Mack Sanders vs. American Bonding Co. of Baltimore, suit on bond. Judgment for plaintiffs as follows: Ellen Cottle, \$241.33 1-3; Charlotte Goodman, \$113.33 1-3; J. L. Fountain as guardian of minor, Mark Sanders, \$241.33 1-3. Court adjourned until the February term.

Irregular bowels lead to chronic constipation and a constipated habit fills the system with impurities. HERBINE is a great bowel regulator. It purifies the system, vitalizes the blood and puts the digestive organs in fine vigorous condition. Price 50c. Sold by M. H. James, Adv.

Use Zensal for that itching eczema. Sold by Smith Drug company. Adv.

# STATE EXPENSES GROW THREE FOLD IN 10 YEARS

By George Schnitzer.  
Houston Post Staff Correspondent.  
Austin, Texas, Oct. 31.—Expenses of government have increased in 10 years from \$8,000,000 to \$25,000,000. Traveling expenses of state officers and employees have increased in 10 years from \$20,000 to \$200,000. The number of employees has increased in 10 years from 1500 to 4300. The tax rate in 1907 was 32 1-2 cents. Today it is about 60 cents.

These were the salient features of a pointed address made by Senator Westbrook, chairman of the senate committee on investigation of state departments in the senate chamber, where the plans for the investigation are being made. Together with four other members of the senate committee, Chairman Westbrook arrived in Austin Tuesday and appeared at the capitol, where the house committee has been in session since last Thursday.

That the above increases are out of proportion to the increase in the assessed valuation of the state was the point brought out by Senator Westbrook. He stated that the taxable values have only increased from \$1,635,000,000 to \$2,811,000,000 in the past 10 years, while the expenses of the government has trebled.

# Harvey

Harvey, Oct. 31.—The terrific dust storm of last Thursday was followed that night by a heavy down-pour of rain. Though it only lasted about fifteen minutes it furnished cattle with a good deal of water. Stock water was getting very low.

About \$80 has been raised toward digging a new well for the school house, as the present well water is of very poor quality and insufficient in supply.

Messrs. Beason and McKnight gave us splendid talks last Saturday night in conserving food and doing all in our power to help win this war. They also urged us to enlarge our society by making it a real community benefit more than literary; a mutual welfare club. Mr. McKnight urged the necessity of better lights and started a subscription by donating a dollar. In a few minutes about twelve or fifteen dollars were raised for something better than gasoline lamps. Both talks were much appreciated and they have promised to be with us again in two weeks from Saturday to help organize the new club. To use their phrase, "everybody come out and get acquainted with your neighbor, you might like him." It was also proposed to have a box supper in the near future to raise money for mutual community benefit to be used as we see fit.

Heavy frost this morning. The thermometer at 30 at 9 o'clock a. m. We are still wishing for more rain.

Mrs. Dr. Rea of Mumford and little daughter, Adeline, attended the literary Saturday night. Mrs. Rea made many friends during her two years sojourn among us, and we very much regret to lose her. She will go to Snyder, Oklahoma, soon to live with her mother indefinitely until the United States determines where to send Dr. Rea.

Miss Lily Davidson, accompanied by her school mate, Miss Mary Mann, spent the week-end with her parents, Dr. and Mrs. C. Davidson. The young people enjoyed a halloween party last Friday night at the W. O. W.

The Christian Endeavorers were disappointed in that our Bryan friends failed to show up at appointed time, but hope to have them with us often. Try it again Bryanites. We had a good meeting last Sunday and a splendid talk on "Perseverance in School Life and Character Building." We will meet hereafter at 3:30 p. m.

Stop coughing! you rack the lungs and worry the body. BALLARD'S HOREHOUND SYRUP checks irritation, heals the lungs and restores comfortable breathing. Price 25c, 50c and \$1.00 per bottle. Sold by M. H. James, Adv.

# Private Better Paid Than Some Colonels

Special to The Eagle.  
Washington, Oct. 29.—According to statistics in a war bulletin, issued recently by the National Geographic Society from its headquarters here, a first-class private in the United States marine corps serving abroad, draws \$41 a year more than a Russian colonel; \$64 a year more than a German lieutenant for the first three years; \$31 a year more than a first lieutenant of the Austrian army, and \$19 a year more than a junior lieutenant in the service in Italy.

Regulate the bowels when they fail to move properly. HERBINE is an admirable bowel regulator. It helps the liver and stomach and restores a fine feeling of strength and buoyancy. Price 50c. Sold by M. H. James, Adv.

# CASTORIA

For Infants and Children  
In Use For Over 30 Years  
Always bears the Signature of *Chas. H. Littlejohn*

Sold in Bryan and recommended as the world's best corn remedy by E. J. Jenkins, M. H. James and N. A. Stewart.

# Always Have PERUNA

Mrs. L. A. Patterson, 1399 Kentucky St., Memphis, Tennessee, writes:

"I have been a friend of Peruna for many years. I have used it off and on for catarrhal complaints and found it a very excellent remedy. I have a small family of children. Times are hard with us, but I can scarcely afford to do without Peruna, especially during the season of the year when coughs and colds are prevalent. We always recommend Peruna to our neighbors, for the benefit it has been to us."

# COMING TO BRYAN RETURN VISIT Doctors Rea Bros.

American Physician Specialists, Giving Free Medical Services to the Sick.

# At Hotel Bryan Tuesday, November 13th One Day Only

Licensed by the states, visiting the principal cities throughout the United States, demonstrating their system of treating diseases and deformities without surgical operation; will give free treatment (except cost of medicine and appliances) to those who apply on this visit.

Liver, Stomach and Bowel Troubles, Dyspepsia, Indigestion, Constipation, Sick Headache, Dizziness, Enlargement of the Abdomen, Bad Breath.

According to their system, they do not operate for appendicitis, gall stones, bowel and ulcerations, going away with the knife and much expense in the treatment of these dangerous diseases.

Tuberculosis, Asthma, Bronchitis, Catarrh, Catarrhal Deafness, Eye Disease and Lung Diseases treated with a combination of medicine, serums, vaccines, diet, and hygiene.

Kidney and Bladder Troubles, pains in the back, weak back, swelling of the limbs, stiffness of the joints, rheumatism, undeveloped children, bed wetting, club feet, curvature of the spine and other deformities.

Blood and Heart Disease, swelling of the limbs, skin diseases, pellagra, old sores, varicose veins, heart palpitation, bad circulation, cold limbs, numbness, enlarged glands, goitre and deep-seated chronic diseases.

Nervous Diseases, epilepsy, neuritis, neuralgia, sciatica, paralysis, mental weakness, nervous prostration, sleeplessness, high blood pressure, mental worry, discouragement, and diseases of women.

Piles, fistula, small tumors, and growths of a suspicious nature treated with the hypodermic injection method, a effective plan of treatment without surgical operation.

Drs. Rea Bros. are well known throughout the United States. Their plan is to secure in each community evidence of their good work so as to benefit them in securing more patients. The sick and those interested are invited to call. Married women must come with their husbands, and children, with their parents.

Hours 10 a. m. to 4 p. m. —Adv.

# SHIPPING CATTLE.

From Wednesday's Daily Eagle  
Three carloads of cattle were shipped from Brazos county Tuesday to the Fort Worth markets. Two cars were shipped by Dee Burkhalter of Wellborn and one car by Ed Carle of College Station. It is a matter of some satisfaction to all to know there are cattle enough here to supply the meat demands of Brazos county, with some surplus to ship to other points.

# Corn Pain Stopped Quick

Corns Lift Right Off With "Geta-It"  
Blessed relief from corn pains is simple as A B C with "Geta-It." When you've been limping around for days trying to get away from a heart-drummer-corn or bumpy callus, and everything you've tried has

only made it worse, and then you put some "Geta-It" on and the pain cases right away, and the corn peels right off like a banana skin— "Geta-It" is a grand and heavenly feeling!" "Geta-It" has revolutionized the corn history of the world. Millions use it and it never fails. Ladies wear smaller shoes and have pain-free feet. We old fellows and young fellows forget our toes and feel frisky as colts. Everybody with a corn or callus needs "Geta-It." We will all walk about and enjoy ourselves as we did "Geta-It." Get a bottle today from your druggist, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill. 25c is all you need to pay.

Sold in Bryan and recommended as the world's best corn remedy by E. J. Jenkins, M. H. James and N. A. Stewart.

# For Coughs and Colds in the Home. Recommend It to Our Neighbors?

# MILlican CAN'T AFFORD TO BLOCK THE HIGHWAY

Meeting There Thursday Afternoon to Give Impulse to the Bond Election for Good Roads in That District in Which Advantages of Living on a State Highway Were Urged and Their Duty Shown.

Of the fifty signatures of tax paying voters necessary for the call of an election, forty-three had been secured in the Millican good roads district number two, Tuesday night, and all who are known to favor the project have not been seen. There are about seventy of these voters in the district, and all but a few want to get out of the mud and ruts, so those in favor of the proposition declare. Once the election shall have been called they anticipate no trouble in carrying it, in view of the fact that both government and state aid are expected to the extent of about \$20,000, leaving only about \$70,000 to vote.

Beyond doubt the meeting held at Millican yesterday afternoon, while it did not arouse any great local interest there, put leaves at work that will be productive of much good. Different speakers dissipated some of the troubles in the minds of residents and cleared the atmosphere materially. P. H. Arrington was chairman of the meeting and first called upon County Judge Maloney to speak. The judge cleared one point positively and definitely. North of the dividing line of district number one and district number two is a three-mile stretch of state highway in district number one that is graded and ditched but has not been graveled. Those opposed to the bond issue have been asserting that district number two bond money would be used to gravel this stretch of road.

**Spend All Money in District.**  
In very positive terms and with frequent reiteration to make it more positive Judge Maloney said that every cent of district number two money would be spent in district number two, and if it were not, those who diverted the money could be sent to the penitentiary. He said that a committee of district number two taxpayers should be appointed to co-operate and work with the county commissioners in the dispensing of this fund, and their wishes would be acceded to in all things except where the constitution placed the burden upon the commissioners' court. He wanted them to all feel that it is their work, and not that of the commissioners. The people of district number one have nothing to do with this project. In answer to a question he stated that the state automobile tax amounts to about \$8 a car per year on the average and about half of that comes back to the county, which must be used on a state highway. The road through Millican had been designated as a state highway and would get the benefit of this money.

**Brazos Funds Handled Honestly.**  
Dr. W. B. Blizell, president of A. and M. college and others from the college were present. The doctor was asked to speak. Being a native of Grimes county, just a few miles away, he felt a special interest in this project, which he declared is a co-operative enterprise. When people get together to do a big thing in concert it means much for their welfare in the future. This community, he said, needs this sort of development, and he knew of nothing better than a good highway to bring it about. It is not only a matter of better means of transportation, but it gets the people together, and it links them up closer with the world outside. In the position he occupies with a highway department he has had a good many chances to observe the handling of funds for highways in the state, and he does not know of a single county in the state where the road money has been handled economically or honestly. He said that the Brazos commission was a success. "It is so easy to be jealous," he said, "and in so many ways there has been ground for it. He offered the services of the college highway department to assist the people of Millican in their good roads project.

**Robertson Wants Highway.**  
Quite a number were present from Franklin, Robertson county, having traveled fifty-three miles in an auto to be on hand at this meeting. The spokesman for the party was B. E. Satterfield, who stated that they were present because they are interested in getting the Henry Exall highway through their county. They have been rather slow, he said, in moving to improve their roads through the center of the county because they did not want to take definite steps until they knew positively that they would be on the Exall highway, which is to be designated at the meeting in Dallas with the state highway commission, November 15. With the highway designated through Robertson county the probability of carrying a bond election would be easier. Brazos valley people need a permanent highway to aid in their development and he predicted that with its completion auto trucks would be running from Millican into Galveston and Houston with the products of the farms. The highway brings about other organiza-

tions for the betterment of the people of the communities and generates more happiness and prosperity.

**Navasota Would Tax Itself.**

Navasota, Grimes county, was represented by a carload of leading citizens whose spokesman was Ward Templeman. The only thing to do he said is to get everybody to sign that petition. If the Navasota owners of property in the district could vote there would be no doubt about the proposition carrying, he said. In appointing an advisory committee he advised against putting on too many, three being enough in his estimation. The people in district number two would feel close to the project if such a committee were appointed. He thought there was too much talk and he wanted to get to the voting. Judge Maloney made the statement that they had figured out the taxpayers in the district and had found that two-thirds of the taxes in district number two would be paid by the non-residents and the railroads.

**Millican People in Line.**

John Battle of Millican was called upon and said that in defense of his own people he wanted to say that they are going to join in this great movement. They are just as refined in sentiment, just as ambitious to enjoy the good things of life and just as willing to contribute to this movement to get those things. He did not believe his people were going to oppose it. The movement is too great, too big, so that they cannot afford to set it aside. "We are going to carry the bond issue and I don't believe there will be any opposition to it," he declared.

**Exall Highway Association.**

L. S. Franklin, secretary of the Henry Exall highway association, was the principal speaker of the evening. A few men, he said, who are determined to do things will accomplish wonders. Man is largely will power, anyhow. He outlined the purposes of the association to build a great highway from the Red river on the north to the gulf on the south, and showed the great possibilities thereof to the people of Millican. The men officially connected with the association are worth two hundred million dollars, these are men who want to see the state great and who know it can be brought about by improving the means of communication. The highway is to be four hundred miles long, and the Texas highway commission will have to locate it. It would be unfortunate, indeed, if the people of Millican should fail to provide the connecting link and let the highway go over some other route. It is a great responsibility to assume. No man lives to himself. That man who is willing to let his community lag behind is not really a patriot. Briefing the history of the highway association he said that about six months ago several men got together to organize it, among them John Sealy of Galveston and Alex Sanger, who started in business in Millican and who just the other day subscribed \$250,000 to the liberty loan. It is to be built as an enduring monument to Henry Exall, who gave the last few years of life entirely to the betterment of mankind. Mr. Franklin declared that when he died he believed he was the greatest man in Texas because he had rendered unselfish service.

**Smug People's Troubles.**

He discussed the smug and satisfied people. Job, he said, never got into serious trouble until he became satisfied with himself. A community that is self-satisfied is hopeless. Every man, if he is a man, should be anxious to make conditions for his children better than he himself was able to enjoy.

**Why Is Land in Houston and Dallas**

of greater value than in Millican, he asked? It has practically the same rainfall and the soil is no better, and it produces about the same per acre. The answer is that these places have more people, and the more people there are the greater demand for land, and the greater the congregation of people the more desirous are other people of joining them.

**Keep Young Folks at Home.**

This railroad, he said, has done about all it can for Millican. The railroads are at a standstill. The great movement of the future will be road building. We owe to that community which fails to keep step. The young folks move away from the villages and we cannot blame them. They are not satisfied to rust their lives out. If we want to keep the young fellows at home we must give them opportunities. Make the home place attractive to the boys and girls and they will not leave.

He believed that the business of Christianity is to give life a chance and dying will take care of itself. The

## SCHOOL BUILDING ARCHITECTS CHOSEN BY JOINT COMMITTEE

Bond Bids to Be Opened November 16--Waller & Co. to Prepare Plans and Specifications and Supervise Construction.

The joint committee, appointed three from the city commission and three from the city school board, held a meeting last night in connection with four leading firms of architects of the state relative to the plans for the new high school building to be erected in Bryan.

After considering carefully the plans submitted by the different firms, the committee selected those of M. L. Waller & Co., of Fort Worth and contracted with this firm to be the supervising architects of the building. They will not only prepare the plans and specifications for the building, but will superintend its construction. As soon as the contract for the construction of the building is awarded, the firm will send a man to Bryan to live until the building is completed, and Mr. Waller of the firm will also make monthly inspections of the work and the progress being made.

The committee hopes to be able to turn over to the city and the school board a building that will be the pride of the entire citizenship.

Upon completion the plans and specifications advertisements for bids will be made, for the construction of the building and unless something unforeseen occurs, it will not be long until the work of erecting a new high school building for Bryan will be in actual progress.

The committee has already advertised the sale of the \$90,000 school bonds and the date for opening the bids for the purchase of same was set for November 16th.

The joint committee is composed of Mayor John M. Lawrence, Tyler Haswell and H. A. Burger from the city commissioners and J. S. Doane, M. B. Parker and R. Q. Astin from the school board.

## DODGES WIN SUIT AGAINST FORD CO.

**(By Associated Press)**  
Detroit, Oct. 31.—A suit, brought against Ford Motor Co., and Henry Ford by John F. Dodge and Horace Dodge to compel Ford to disburse accumulated dividends to the stockholders instead of using the money to increase the company's business, was decided in favor of Dodge Brothers.

old time method of presenting Christianity was to urge preparation for death. Now the method is to urge right living and death will lose its terrors.

He spoke of the value of living on a great highway in its influence on the people along it, both materially and socially. He was proud of the fact that the president of the greatest institution of its kind in the south was present to give his influence to this movement. If the people of Millican district vote these bonds, he declared, they get themselves in line with the great thought of the state and nation. It does not take brains to be opposed to anything; all one needs do is to think out these great movements. All the money to be raised by these bonds is to be looked after by the county with the advisory committee and the federal government. "I don't believe public officials as a rule are dishonest, but they often need advice and guidance," he declared.

**Can Borrow More Money.**

Another point he made was that by reason of the highway land values would be increased and more money could be borrowed under the land bank system.

The world is not going to stop if this election is not carried, he told them, but he urged that every man in the community sign that petition. Diverging somewhat he spoke of the fact that most of the insane women in our asylums come from the rural districts because of the effects of loneliness, the cure for which is society, and that is obtainable through the influence of good roads.

After the war he predicted a great influx of foreign farmers who would seek those communities that have good roads, good schools and good churches. They are farmers, too, who for thousands of years have practiced scientific farming.

"You ought to convert everyone of the seventy voters in this district to the good roads idea. Wouldn't it be an awful thing if seventy men could tie up this whole project?"

County Commissioner Buchanan remarked at the close: "I am going to have this road built if I have to come down here and build it myself."

After some informal discussion the meeting broke up and divided into groups to discuss the proposition. Five carloads of men from Bryan and one each from Navasota, College and Franklin were present.

## FOUR OF BRITISH CREW WERE LOST IN BALTIMORE FIRE

Two Piers Burned and Blaze Spread to a British Steamer Lying in the Harbor--Loss \$5,000,000.

**(By Associated Press)**  
Baltimore, Oct. 31.—The disastrous blaze which wrecked two of the Baltimore and Ohio terminal piers at Cloud Point spread to a British steamship causing it to burn and sink with a probable loss of four of the crew. The fire broke out last night and was gotten under control at 3 o'clock this morning. Railroad officials declare the blaze of incendiary origin. The loss will be over \$5,000,000.

## OFFICE HOLDING ARMY COULD BE DISCHARGED

**(By Associated Press)**  
Dallas, Oct. 26.—In a statement opening the meeting of the senate committee for investigation of state departments, Senator Westbrooke of Hunt county declared the expense of the state could be reduced 5,000,000 and the army of office holders discharged without crippling the efficiency any.

## AMERICAN TROOPS IN FIRST LINE TRENCHES

**By Associated Press**  
With the American Army in France—Oct. 27.—American troops are now in the first line trenches on the French front. They are supported by American artillery. The artillery fired the first shot at the Germans at six o'clock in the morning of a recent day.

The first shot was fired at a German working party. The first shell case is to be sent to President Wilson. Following is first official statement issued by American headquarters:

"In continuance of their training as a nucleus for instruction later a contingent of some battalions of our first contingents in association with veteran French battalions are in the first line trenches of a quiet sector on the French front. They are supported by some batteries of our artillery in association with veteran French batteries. The sector remains normal. Our men have adopted themselves to the actual trench conditions in a most satisfactory manner.

"Helmeted infantry marched in without the knowledge of the enemy on the same night through rain and mud. French soldiers in the trenches welcomed them enthusiastically. The nearest enemy trench is several hundred yards away. The sector is one of the quietest of the front. It has been taken over, being under direction of French. Americans have shelled German positions and troops, the enemy sending shell for shell.

The first shot was fired by a red haired gunner as his comrades and officers cheered. Later luncheon in the field was attended by American and French artillerymen in celebration of the first American contact with the enemy.

On the second day the French fired at German battery positions and the enemy replied vigorously, projectiles falling close to the Americans who joined in the artillery duel. All troops are to be relieved after a certain period by others, enabling all Americans to get the benefit of actual war conditions.

## VARIOUS ENCOUNTERS ON ITALIAN FRONT

**(By Associated Press)**  
Rome, Oct. 31.—There were various hill and canal engagements between Italians and the invading Austro-German troops yesterday, the war office says, the Italians covering the units and the cavalry permitting the other troops to continue to move toward their new line.

**According to Plans.**  
**(By Associated Press)**  
Berlin, Oct. 31.—The campaign on Italian front is being developed in accordance with the plans of the Austro-German leaders, the war office reports.

**PISTOL TOTING CASES.**  
Deputy Sheriff Leonard Morehead and Constable C. L. Baker yesterday arrested Andrew Thomas, Roy Allen and George Udley, all colored, at Cawthon in the southern portion of the county on charges of pistol toting. The officers report the men well supplied with ammunition and that they opened a general fusillade as they passed through the country.

## HOOPES PRAISES THE PATRIOTIC PRESS

Dallas, Texas, Oct. 31.—It would appear that the liberty loan is safe. By working day and night we have managed to tabulate about \$69,000,000 worth of subscriptions up to the time of the dispatch of this telegram. Final figures, which it is confidently believed will total over our \$75,000,000, the minimum allotment, will be available on Thursday night, when we will at once advise the press. Needless to say we shall express to the members of the press and to our organizers and workers individually the deep gratitude of the government and the officers of the federal reserve bank of Dallas for the magnificent work which has been accomplished. The press of this country have raised to themselves a monument of patriotism which will stand for all time. The liberty loan workers have shown that an intelligent, practical patriotism exists from the Red river to the Rio Grande, in the Sierras of the New Mexico, in the mines of Arizona and in the farm lands and markets of Louisiana and Oklahoma. Press, organizers and public have shown their worthiness to share in the forthcoming triumph of world-wide democracy.

J. W. HOOPES, Deputy Governor of Federal Reserve Bank.

## Water Way Leaguers to Meet Congressmen

**(By Associated Press)**  
Corpus Christi, Texas, Oct. 31.—Officials of the Interstate Inland Waterway League of Louisiana and Texas are making arrangements for Louisiana and east and southwest Texas delegates to join at Houston on November 21 the congressional party that is to spend a week visiting Texas ports, and on November 22 and 25 attending the annual convention of the Waterway League to be held here.

A few days before the close of the special session of congress, Hon. J. H. Small, chairman of the house rivers and harbors committee accepted an invitation to visit Preepoot and other Texas points.

Among those of the committee who have signified their intention of making the trip are Chairman Small of North Carolina; Hons. Charles F. Booker of Missouri; William Kettner of California; L. M. Taylor of Arkansas; Murray Hulbert of New York; H. Garland Dupre of Louisiana; Martin Dies of Texas; Oscar L. Gray of Alabama; George K. Denton of Indiana; H. F. Fisher of Tennessee; Charles A. Kennedy of Iowa; R. H. Switzer of Ohio; James L. Freer of Wisconsin; Dow H. Drukker of New Jersey; S. Wallace Demsey of New York and Henry L. Osborne of Ohio.

Governor Hobby has accepted an invitation to be with the party as much as possible during their stay in Texas.

## Germany Assured Plenty of Food

**(By Associated Press)**  
Berlin, Oct. 31.—In a speech here Berun, under secretary for the German food department, said Germany is again assured for the fourth winter of the war. He said the German potato crop was between 4,000,000 and 4,500,000 tons above the estimate and the corn supply for the winter is fully assured.

**DRAFTED NEGRO INJURED.**

Claude Nelson, one of the drafted negroes from this county, was injured last Friday, his leg being broken. He was riding a young horse without saddle or bridle, when it ran away with him, stopping suddenly at his own gate with such force that the boy's body was almost wrapped around the post. The break is a bad one and much bruised, so bad the doctor says it will require eight weeks for healing. Claude was only 20 years old when he registered, but not knowing his age, he took the advice of a white man who told him if he was 21 and did not register he would be sent to the penitentiary, and advised him to be on the safe side.

## ARTILLERY FIGHTING NEAR AISNE LIVELY

**(By Associated Press)**  
Paris, Oct. 31.—Today's official statement reports lively artillery fighting north of the Aisne. The enemy in his attack, attempted near Loivre, was repulsed in Argonne. The Germans suffered considerable loss when the French repulsed a surprise attack. Enemy aviators dropped thirty bombs last night on Dunkirk. No casualties nor important damage are reported.

**Aeroplane Driven Away.**  
**(By Associated Press)**

London, Oct. 31.—The official statement says a hostile aeroplane crossed the Kentish coast early this morning. Anti-aircraft guns drove the enemy away before it penetrated inland. No casualties resulted.

**Canadians Established.**  
**(By Associated Press)**

Canadian Headquarters in Flanders, Oct. 29.—(Tuesday)—The Canadians having gained a further footing on Passchendaele ridge after bitter fighting have now established their front line within a few hundred yards of the ruined village of Passchendaele.

**No Counter Attacks.**  
**(By Associated Press)**

London, Oct. 31.—The Germans made no attempt during the night to regain the ground won yesterday by the British on the Ypres front. The statement says German artillery developed some activity during the night but no counter attacks occurred.

## ARTILLERY REPLIES TO FRATERNIZERS

**(By Associated Press)**  
Petrograd, Oct. 31.—The Germans are continuing their attempts to fraternize with the Russians, the war office says. Efforts to fraternize were frustrated yesterday on the northern front by the Russian artillery.

## ROCK ISLAND MEN GET INCREASE WAGES

**(By Associated Press)**  
Chicago, Oct. 31.—Wages were advanced and hours per day and days per month were reduced by the board of arbitration which reported today on the demands of telegraphers of the Chicago, Rock Island and Pacific railway. Seventeen thousand dollars additional each month will be added for wages.

## FOURTH DISTRICT EXCEEDS ITS QUOTA

**(By Associated Press)**  
Cleveland, Oct. 31.—It is officially announced that the fourth district second liberty loan subscriptions amount to \$489,450,000, with returns not all in. The maximum quota was \$300,000,000 and the committee's goal was \$400,000,000.

## German Losses Are Six Million Men

Washington, Oct. 31.—Germany lost 6,000,000 men in the three years of war, according to a declaration made in the reichstag by the independent socialist Ledebour.

A report of his speech reaching Washington through Switzerland states that contemplating the prospects of a fourth winter campaign the socialist leader said:

"You have not evidently, gentlemen, an exact conception of what war means. We have had 1,500,000 dead; 3,000,000 or 4,000,000 wounded, of whom 500,000 are crippled for life, and 2,000,000 absolutely invalided. That makes altogether 6,000,000 men lost during three years."

## Refunds Paid by Highway Commission

**(By Associated Press)**  
Austin, Texas, Oct. 31.—Hundreds of checks covering refund claims have just been mailed out by the state highway commission to various persons throughout the state. No claims against the commission for refund on account of error can be made unless it is presented in proper manner and sworn to by the claimant. This is the reason there has been a large accumulation of these claims, many of which had to be returned.

These errors in practically all cases have now been corrected and the claims are being paid. The law under which the commission is operating is entirely new, consequently there has been much delay in getting the claims in proper shape.

**BRYAN BOY IN TRENCHES.**

City Manager Greer was in receipt today of a letter from his son, Lieutenant Fred C. Greer, in which the young man states that he was at the time it was written in the front line trenches, and evidently among the first contingent sent forward, announcement of which was made only a few days ago. As the letter was written after he entered the trenches it indicates how slow the government is to let out important news until the contemplated movement has been completed. He says the Americans are with instructors and are not supposed to go over the top unless they want to with the French. Another thing he mentions that it takes a half day to cross No-Man's-Land, a distance of 3,000 yards, because of the shell holes and entanglements. Trench rats, he says, are as big as Texas possums and are excellent for pistol practice.

## GERMAN SOLDIERS ENGAGE IN SERIOUS MUTINY IN BELGIUM

Refused to Go to the Front, Damaged their Guns or Fired on their Officers But Were Finally Overcome.

**(By Associated Press)**  
Amsterdam, Oct. 31.—According to the newspaper, Nieuws, a serious mutiny occurred among the German soldiers at Beverloo camp in Belgium. It is said the men refused to go to the front and damaged their own rifles in some cases while others fired on their own officers, several of whom were wounded. The mutineers were finally mastered and removed in cattle trucks.

**No Counter Attacks.**  
**(By Associated Press)**

London, Oct. 31.—The Germans made no attempt during the night to regain the ground won yesterday by the British on the Ypres front. The statement says German artillery developed some activity during the night but no counter attacks occurred.

## West Texas Dry but Glad Its "Dry" Here

Colorado, Texas, Oct. 25.—To The Bryan Eagle: Perhaps you will be surprised to know that I am out here with the sand storms of West Texas. We had a bad sand storm last Thursday, Saturday and Monday and another one is blowing this morning, but you will not be surprised at the sand storms when I tell you that there has not been rain enough to bring up the seed that was planted in the spring. The farmers are not making anything out here this year, although this is fine land and country when they have rain but, like good old Brazos, they cannot produce without rain. Say, Mr. Editor, I had the pleasure of reading The Eagle a few days ago and to my sorrow I saw that the commissioners court had put off the closing of the saloons until July. I was made to wonder is such a thing could be done. This morning through the kindness of Mrs. Joe Sheppard I got another copy of The Daily Eagle and was made to rejoice that such a thing could not be done, and that County Judge Maloney will publish an order putting prohibition into effect according to the election and law. Glory be, to the men of stamina. I had the honor and pleasure of attending a home wedding of one of Brazos county's most popular young ladies, Miss Minnie Lawless, at the beautiful home of Mr. and Mrs. Joe Sheppard. After serving ice cream and cake they took the train for a tour. The groom is Mr. C. Pritchett and is connected with the City National Bank of Colorado, Texas.

J. H. WHITE, SR.

## German Propaganda Active in Mexico

El Paso, Texas, Oct. 31.—Posters in Spanish urging Mexicans to remain neutral, to be friendly with Germany and not to become an ally of the United States were displayed in front of a German stationery and supply house in Chihuahua City, together with pictures of the Kaiser and distorted statements of German victories, a Mexican merchant, who arrived here Tuesday from Chihuahua City, said. This is part of the campaign to create a feeling in the north friendly to the German cause, he added, and said much money was being spent there to further this propaganda.

The Mexican said General Francisco Murguía's trip to Mexico City was to attend a conference of generals to discuss a plan of campaign against the growing Felix Diaz and other revolutionary movements in the south.

A conference between Spaniards from the United States and Germans in Chihuahua for the purpose of planning an evasion of the trading-with-the-enemy act was to be held in Chihuahua City Wednesday, the merchant said. They expect to act as agents of German houses to get goods to Mexico in spite of the embargo.

## Luis Cabrera Will Visit Washington

Mexico City, Oct. 31.—It became known Tuesday that Luis Cabrera, former minister of finance, is shortly to leave for Washington, having obtained leave of absence from the lower house of congress, of which he is a member, for the purpose of carrying out a commission for President Carranza. Senator Cabrera's mission is said to be connected with embassy affairs at Washington in an effort to secure gold and the lifting of the embargo on such necessities as Mexico desires to import.

**LIBERTY LOAN SUBSCRIPTIONS.**  
Subscriptions to the second liberty loan by citizens of Brazos county at the close of business Saturday night reached a total of \$123,850.

Ring G. D. Tucker for all kinds of feed. He sells for less.

## MODERN RESIDENCE FOR CUBAN PRESIDENT

(By Associated Press)  
Havana, Cuba, Oct. 3.—(By Mail)—Palacio Presidential, now the official residence of President Menocal, which was completed in 1792, is soon to be abandoned and a more beautiful and spacious structure, now in course of erection at a more central point, is to take its place.

In 1910 congress ceded to the Provincial Council of Havana a tract of land which faces the entrance to Havana harbor and Morro Castle, on which was to be erected a Provincial Palace. The work of erection began in 1911, but was discontinued after more than \$521,000 had been expended on the building. President Menocal has given his support to the plan of taking over the structure for use as the national capitol, and, by making a few changes, modeling it into a Palacio Presidential.

When completed the new palace, the final cost of which will be more than \$1,000,000, will be an architectural jewel. Its great dome, formed of a steel framework, will be covered by the square of this edifice into a presidential palace the physiognomy of the surrounding district will be completely changed, in order that its beauty may not be marred by unsightly buildings or undesirable business places.

## STATE EXPENSES GROW THREE FOLD IN 10 YEARS

By George Schnitzer.  
Houston Post Staff Correspondent.  
Austin, Texas, Oct. 31.—Expenses of government have increased in 10 years from \$8,000,000 to \$25,000,000.

Traveling expenses of state officers and employees have increased in 10 years from \$20,000 to \$200,000.

The number of employees has increased in 10 years from 1500 to 4300.

The tax rate in 1907 was 32 1-2 cents. Today it is about 60 cents.

These were the salient features of a pointed address made by Senator Westbrook, chairman of the senate committee on investigation of state departments in, the senate chamber, where the plans for the investigation are being made. Together with four other members of the senate committee, Chairman Westbrook arrived in Austin Tuesday and appeared at the capitol, where the house committee has been in session since last Thursday.

That the above increases are out of proportion to the increase in the assessed valuation of the state was the point brought out by Senator Westbrook. He stated that the taxable values have only increased from \$1,625,000,000 to \$2,811,000,000 in the past 10 years, while the expenses of the government has trebled.

Use Zensal for that itching eczema. Sold by Smith Drug company.

### Stop Itching Eczema

Never mind how often you have tried and failed, you can stop burning, itching eczema quickly by applying a little zemo furnished by any druggist for 35c. Extra large bottle, \$1.00. Healing begins the moment zemo is applied. In a short time usually every trace of eczema, tetter, pimples, rash, blackheads and similar skin diseases will be removed.

For clearing the skin and making it vigorously healthy, always use zemo, the penetrating, antiseptic liquid. It is not a greasy salve and it does not stain. When others fail it is the one dependable treatment for skin troubles of all kinds.

## PIMPLY? WELL, DON'T BE!

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, the bowels and the liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's never any sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with "a dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

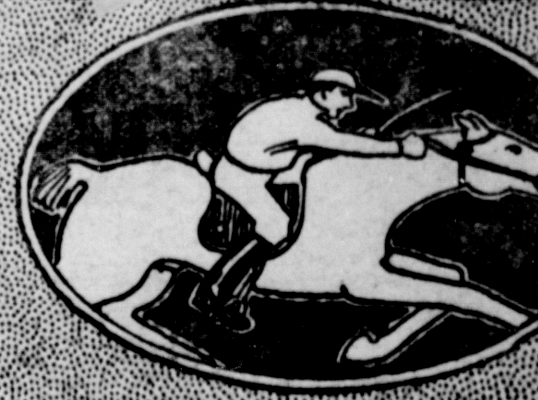

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result.

Take one or two nightly for a week. See how much better you feel and look. 10c and 25c per box. All druggists.

## WAR TIME ECONOMY--PAY CASH

TO OUR FORMER CUSTOMERS: We take this opportunity to advise that the Glenview Dairy will begin retailing milk, effective November 1st, and solicit your account. It is our aim to give the Bryan people a dairy product of which they will be proud.

The farm is now under new management, Mr. Jay A. Burton, who has had twenty years experience in the dairy business and comes highly recommended. We are at present turning out a quality of milk testing 5 1-2 per cent butter fat, which is above the average, to say nothing of this dry year we have just experienced.

Then, too, our methods of handling dairy products is of a nature as to assure an absolutely clean product. Our milk bottles and all utensils that come in contact with the milk are washed, steamed, and sterilized after each usage and placed in a screened sun room. To that end we are conforming to the state laws of Texas.

There is not a shade of doubt that impure milk and cream are prominent factors in keeping prevalent infectious and contagious diseases. If milk is free from contamination when bottled—whether raw or pasteurized, the proper bottling is the greatest aid procurable for continuing the purity and cleanliness of the milk until the cap is removed. We have installed the automatic bottling system at a considerable expense to assure the customers we want their business and are prepared to handle it better than ever before.

We have installed the cash coupon system and am sure the house-wives will find it a saving and convenience. You are cordially invited to inspect our methods of production at any and all times, and remember when you want first class service and clean and sanitary products that our telephone number is 1438.

Yours for cleanliness and health,

The Glenview Farm
